

# Wilson Sends Inquiries To France And Harding On French Overtures To Republican Nominee

## President Calls Attention To The Grave And Extraordinary Inference To Be Drawn From Statement

WASHINGTON, D. C., October 18.—President Wilson today directed inquiries to both the French government and Senator Harding as to the Republican candidate's recent statement that he had been approached "informally" by a representative of France, and asked to lead in the formation of an association of nations.

The inquiry to Senator Harding, which was in the form of a letter, was made public at the White House. At first officials there refused to deny or confirm that an inquiry also had been sent to the French government, but subsequently Secretary Tumulty announced that such action had been taken.

Mr. Tumulty would not say what form the inquiry to the French government had taken nor whether it had been communicated through the embassy here or through the American ambassador at Paris.

Quoting from a dispatch dated St. Louis, October 16, purporting to report the statement of Senator Harding, the president said:

"I need not point out to you the grave and extraordinary inference to be drawn from such a statement, namely, that the government of France, which is a member of the League of Nations, approached a private citizen of a nation which is not a member of the league with a request that the United States lead the way to a world fraternity."

Declaring that the state department had always found the government of France most honorably mindful of its international obligations and punctiliously careful to observe all the proprieties of international intercourse, the president wrote that he hesitated "to draw the inference to which I have referred unless I am assured by you that you actually made the statement."

The letter of the president to Senator Harding follows:

"Eighteenth of October, 1920.

"My Dear Sir:

"In the New York Times of yesterday, Sunday, October 17, 1920, I find a statement dated St. Louis, October 16, which purports to report certain public utterances of yours. In it occurs the following:

## ONE OF ELEVEN CORK HUNGER STRIKERS DIES

AUTHOR TO DO THE "I WILL" ONCE MORE; PICKS A FILM STAR FOR FOURTH MATE.

Willard Mack, author and playwright, has practically announced his engagement to Barbara Castleman, noted beauty and motion picture star. Mack already has been married three times. His first wife was Claude Leone, an actress. His second spouse was Marjorie Rambeau and his third Pauline Frederick, stage and screen star.

CORK, October 18.—The death last night of Michael Fitzgerald, first of the 11 hunger strikers in the Cork jail to succumb to the results of their fast of more than two months, probably will have an extremely bad effect upon the other hunger strikers, according to the jail doctors today.

Although the men occupy separate cells, it is difficult to keep news of what is happening from reaching them.

Joseph Murphy, Sean Hennessy and several of the other fasting prisoners, are now so low that the end is expected shortly. Hennessy's father, who was visiting the prison yesterday, said he saw a number of other relatives on learning that Fitzgerald was dying, began reciting the rosary, but before they had finished Fitzgerald was dead.

CORK, Oct. 18.—The first death among hunger strikers in Cork jail occurred Sunday. Fitzgerald died at 9:45 o'clock last night, having fasted sixty-eight days.

The condition of Fitzgerald and Murphy had become so grave that, with the consent of the other hunger strikers, the prison doctors were permitted to give Fitzgerald medical treatment. A Cork specialist also was called in.

Fitzgerald was one of the 11 men on a hunger strike in the Cork jail whose names for a long time have been the source of wonderment on the part of the medical authorities. Nearly a month ago Dr. Pearson and Dr. Hatterscombe the jail physicians, expressed profound amazement that the men who were abstaining from food were alive and conscious. At that time the physicians said that except for the devotion and care of the nuns in attendance upon the prisoners it was certain that several of them would have died long since.

Severely Emaciated

All the hunger strikers were declared to have been reduced to a severe degree of emaciation. The fact that Fitzgerald at the time was declared to be most pronounced.

Fitzgerald was arrested for shooting Private Soldier James outside Fermoy church on September 7, 1919. (Continued on Page Six)

## IN 3-CORNERED GOVERNOR RACE

John Maynard Harlan is running for governor of Illinois as an independent Republican. The regular G. O. P. candidate, Len Small, is distasteful to a large number of Republicans outside Cook county. Harlan did not enter the race for governor until after he had been promised powerful Republican support. The split in the opposition has given hope to Illinois Democrats.

## BOLSHEVIK ARMY CRUMBLING FAST

SEBASTOPOL, CRIMEA, October 18.—(By the Associated Press).—Following the defeat of Soviet forces by General Wrangel's army at Simferopol, two Soviet regiments stationed in the village of Ribaskoe, held a meeting and decided to surrender, according to an official report. They took this action in view of the fact that they were without food, shoes and clothing.

Bolshevik authorities are reported to no longer conceal the fact that their army is dissolving and that a winter campaign is impossible under present conditions.

## Red Flag Flown In Rioting In White Hall

LONDON, October 18.—Disorderly mounted police were called out to assist the regulars.

At least two of the police and several civilians were injured in the early attempts of the crowd to get through the cordons. Finally the crowd began to throw stones. The parapet on one side of Downing street also collapsed during the crush.

A number of persons were injured when a crowd headed by the red flag of the Tottenham district Socialist and labor party made a determined rush and tried to break through the police. Eventually the red flag was captured.

A small party of demonstrators went to the neighboring Trafalgar Square, set up a red flag, sang the "Internationale" and cheered Lenin and Trotsky. No trouble developed here, however, the police not interfering.

Fifty injured persons were given treatment when the trouble ended. Twenty of these were sent to hospitals.

## Search For Sing Sing Fugitives

OSSING, N. Y., Oct. 18.—Sing Sing prison keepers, reinforced by police and civilian volunteer posses today continued in search in four states for George Stitzer and Marcus Bassett, two "trust" convicts who on Saturday night made a spectacular break for liberty.

Belief was expressed by keepers that the desperadoes had tried to reach Rhode Island or Massachusetts, and warnings were sent broadcast to police of those states, as well as Connecticut and New York.

During yesterday, the men, riding in a stolen automobile, held up several different garage keepers and other civilians in Connecticut from whom they took citizens clothing, gasoline and food.

## ENGLISH HOPEFUL OPPOSING FACTIONS WILL REACH TERMS

LONDON, October 18.—One effect of the coal strike upon England has been the weakening of the pound sterling, which has dropped to \$3.44 on buying orders to cover actual and prospective coal shipments from United States to Europe. The effect has already been seen on continental exchanges, all of which moved against Great Britain late last week and which were again slightly weaker today.

Persistent reports of efforts to settle the coal miners' strike partly relieved the spirit of anxious uncertainty of the British nation today. "For the moment, these reports seem to have greater basis in hope than in actual information."

John Robert Clynes, former food controller, and one of the most moderate of the labor leaders, has expressed confidence in a settlement within a week, it both sides could be brought together to discuss calmly the controversy. He advocates as a basis of agreement the granting to the miners of half their demands and the submission of the remainder to an impartial tribunal.

J. H. Thomas, general secretary of the National Union of Railwaymen, also has made moderate statements and both these men are relied upon to (Continued on Page Six)

## WHISKEY FOR DEMOCRATIC DELEGATES, ALLEGED; PALMER ORDERS PROBE

WASHINGTON, D. C., October 18.—Attorney General Palmer today directed the United States district attorney at San Francisco to make a full and complete investigation of reports that 30 barrels of whiskey and gin were withdrawn from bond at San Francisco for the entertainment of the delegates to the Democratic National Convention.

At the same time Mr. Palmer in a telegram to Acting Mayor McMan, of San Francisco, called upon that official either to produce the proof of or publicly retract a statement attributed to him that Mr. Palmer knew all about the whiskey transaction at the time.

Mr. Palmer's message to the acting mayor was predicated upon special dispatches from San Francisco appearing in newspapers in Washington and other cities yesterday morning.

The dispatches said facts as to the withdrawal of whiskey had been disclosed by a grand jury investigation.

## PLAN CIVILIAN TRIBUNAL IN THE REORGANIZATION OF BASEBALL LEAGUES

CHICAGO, October 18.—Discussion of plans for the reorganization of baseball under a "civilian" tribunal, was started here today at a joint meeting of National and American League club owners. All the members of the National League, headed by their president, John A. Heydler, were present, as were representatives of the Chicago, New York and Boston American League clubs.

H. B. Johnson, president of the American League, had announced he would not attend the meeting and the five members—Washington, Cleveland, St. Louis, Detroit and Philadelphia—who aligned themselves with him in the fight last winter, were not expected to attend.

The chief topic today was the discussion of the Lasker plan of reorganization, which if adopted would place control of professional baseball under a "civilian" tribunal of three men not interested financially in the game. This would result in the delegating of the national commission which body has been without a chairman since the resignation of August Herrmann, of Cincinnati, last fall.

The reason given by Mr. Johnson for not attending the meeting was that he did not think it advisable at this time to discuss reorganization because of "startling evidence he thought might come before the Cook county grand jury when it reconvenes tomorrow to continue its investigation of the baseball scandal."

The conference is the outcome of suggestions made following grand jury disclosures of crooked work in the 1919 world's series.

## Foreign Born Will Swell Harding's Majority In Western New York, Says Lawrence

BY DAVID LAWRENCE  
(Copyright by Times Publishing Co.)  
UFFALO, N. Y., Oct. 18.—Western New York has so much to do at war with the cutting down of the Tammany districts that one need not search further than Erie County for the reasons why New York state will go heavily Republican this year.

Germans, Italians, Poles, Slovaks, Hungarians and Russians make up the foreign born population that exceeds the native born. It is easier to assume that some of these groups will be affected by foreign issues in which the Wilson administration has become involved for or against the home countries but investigation among the leaders of thought in these foreign born groups leads to the conclusion that democratic Republican administration will receive low being relief from economic ills of today, will turn the Polish vote to the Republicans.

ances growing out of the European war.

The campaign among the foreign born has not been extraordinary. Certainly it has not been as intense as it was in 1916. On the other hand, the Democrats have inherited much more confidence than the Republicans have acquired and it is hardly an exaggeration to say that the bulk of the German vote, the Italian vote, and even the Polish vote will go to Harding.

If Wilson were a candidate, a leader of the Poles told the writer, he believed the Polish vote would be Democratic this year as there is a feeling of appreciation for the part the president played in establishing the Polish republic. But the high cost of sugar and the well-known belief that the Republican administration will somehow bring relief from economic ills of today, will turn the Polish vote to the Republicans.

## COX URGES YOUNG VOTERS TO DISREGARD PARTISANSHIP AND VOTE AS AMERICANS

SYRACUSE, N. Y., October 18.—Governor Cox today opened his second campaign with an address here to first voters, urging them to disregard partisanship and to vote as Americans.

"Americanization," said the Democratic presidential candidate, "is but another word for construction. Americanization is not selfishness. It means that we so love this freedom of America that wherever it is the whole world shall mean honor, loyalty, progress, humanity and peace. To shout 'America first' and then oppose making America first throughout the world, is to turn our backs on progress and on the ideals which the framers of our great constitution wrote into the soul of America."

"Therefore, when I talk of the League of Nations, I am presenting no new spirit but an simple endeavoring to keep the faith of America."

Stating that first voters represent a new generation, Governor Cox said that civilization was like a "relay race," each generation taking the baton from the preceding and contributing its share toward world progress.

"Some people," said the governor, "are not willing to take the baton and thereby lose the race by slipping back."

"There can be nothing more reassuring than that this great army of voters composed of millions of young men will approach the ballot box this fall with the same patriotism with which they stood in the front trenches."

"I find that the young men and the mothers will insist that we become a part of the League of Nations. The young men who are first voters will find themselves in distinguished company this year for the mothers of America have been given the rights to which they are entitled. I have no doubt but what the mothers of America will vote in the forthcoming election, nor have I a single doubt what the young men will do. Mother and son link the two generations which stand for a peace won by the sons and maintained by the mothers of America."

Governor Cox's program today called for his spending the morning here, an afternoon address at Rochester and a night session at Buffalo.

## "Some One Must Finance This Year's Crop"

WASHINGTON, D. C., October 18.—Declaring that "some one" must finance this year's crops, George F. Hampton, managing director of the Farmers' National Council, today wrote the federal reserve board suggesting that it exert an effort to get its members to discount farm paper and warehouse receipts, the governor borrow money and deposit it in national banks to be loaned to farmers at not more than 1 percent in excess of the rate the government pays.

Farmers thus would be able, Mr. Hampton said, to hold at least a part of their crops until they can get out of production plus a reasonable profit, or until there is an effective consumption demand.

"Either the primary producer or those who are seeking to get control of farm products and who are able to get credit from some source must finance the crop, the latter said."

"The men seeking to corner agricultural products will not reduce the prices at which they sell crops any longer than they have to," Mr. Hampton declared. "The law of supply and demand will be unavailing in case these hoarders can obtain an embargo on importation of farm products in crude condition as it is intimated they intend to do."

## PLAN UNION OF PROTESTANT DENOMINATIONS

ST. LOUIS, MO., October 18.—Formation of a committee to inquire into feasibility of a union among Protestant denominations, so far as their fundamental doctrines are concerned, was considered today on the resumption of the conference of ministers and laymen of the Disciples of Christ (Christian Church), held preliminary to the international convention of the denomination, which will formally open here tomorrow.

## Billy Butt In Times Weather Map

Folks, that cold wave seems to have come on a lark of its own. It's past due and there's no trace of it. In the meantime we've got to hold on to our summer coats. Here's for tomorrow:

OHIO: Increasing cloudiness and somewhat warmer tonight, probably followed by showers Tuesday.

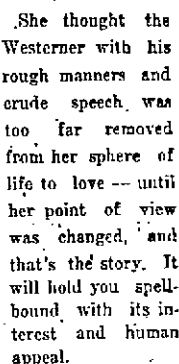

KENTUCKY: Uncertain. Probably showers late tonight or Tuesday in west and north portions.

The extremes in local temperatures today were: High, 33; low, 26.

# ACCIDENT TO HOSEY RESULTS IN LOSS OF HIS RIGHT FOOT

## ITALIAN EARTHQUAKE, REFUGEES LIVE IN MAKESHIFT TENTS

Italians whose homes were wrecked making tents and houses of bedding.

This photograph shows the aftermath of the earthquake in Italy. Many of the people whose homes were wrecked are now living in tents or any other possible shelter. They are making their houses of bedding, rugs, branches of trees and even using clothing to make a roof for their heads. A small settlement of these unfortunate with poor substitutes for homes are shown.

Charles Hosey, aged 21, son of Mrs. Julia Hosey, of 2005 Seventh street, will be married for life, the result of an accident he met with late Saturday night while riding his motorcycle to his home.

When his machine caromed off an automobile in front of the High School building, falling on the street, he was hurled against a telephone pole and the loss in his right foot were so badly crushed that amputation was necessary just above the ankle. Hosey was hurriedly taken to Hempstead Hospital, where his foot was amputated by Drs. Mickelthwait, Halderman and Smith.

Hosey rallied nicely from the operation and he was reported resting easily Monday. He is employed by the Universal Motor Company, and is well known in the city. He was in Uncle Sam's Victory Army and spent a year in France.

# FORD OVERTURNS: TWO HURT

## A TOURING TRAGEDY

Five persons faced possible serious injuries Sunday afternoon when a Ford machine driven by Mrs. Elsie May Miller of Front and 28th streets turned over on Damaria's street in East Portsmouth.

Mrs. Jamison and Willis Harte were bruised about the head, arms and shoulders. Miss Elsie May Miller, Henry and Jessie Hardin suffered only minor scratches.

One of the front wheels of the machine got caught in the street at track and when Mrs. Jamison tried to release it the car swerved to one side and toppled over. She and Willis Harte were pinned under the car but were not seriously injured. The car was damaged considerably, one wheel being crushed, the windshield shattered and the front fenders and radiator were also damaged.

Mr. Hardin and family live at Front and Seloto streets.

Besides her husband she is survived by a sister, Miss Leona, at home, Mrs. M. E. Rowland, 1517 Third street, and Mrs. Alldredge. The body was laid to rest in Greenwood cemetery.

## MANY SUITS SHOW THIS LOOSE PANEL EFFECT IN BACK

The new tail suits show most touches which have not been seen for some time. Embroidery and fur trimming are two of the most notable features. The fur collar trims the collar and often forms a pocket or patch, as on the dressy suit of peach bloom. As other features which are often seen is the loose panel back effect with a belted front. That is a very distinctive feature of this suit.

Alvin N. Jordan who has been doing much of his valuable time in preparing data to be used in preparing bills before the Board of Engineers will recommend which suit is best to the government. Mr. Jordan has, through his efforts, organized the Great Lakes and Ohio River Waterways Association and by the help of the men in this Association who have prepared favorable reports about the river, Mr. Jordan intends to prove the claim of the greatest transportation improvement when he goes before the board to argue for the recommendation of the Central route.

# TO RESUME CAMPAIGN INVESTIGATION TODAY

ST. LOUIS, Mo., Oct. 18.—The senate committee investigating campaign expenditures today resumed its inquiry here into the Democratic pre-convention campaign in Missouri. The committee planned to drive further into the activities in behalf of Attorney General Mitchell Palmer and summoned Edward P. Galt, of St. Louis, national committeeman. Payment of expenses of delegates to the Democratic state convention at Joplin and the national convention at San Francisco was under investigation.

According to testimony at a previous hearing, Galt distributed about \$3,000 among delegates to the Joplin convention to help defray expenses. He has formally denied, however, that any financial assistance was given to the San Francisco delegation. The campaign of Senator Nelson S. Spencer, Republican member of the committee and his Democratic opponent, Hockensridge Long, also will come within the scope of the inquiry, according to Senator James A. Reed, Missouri, who is a member of the investigating body.

## 2 Men Stage Scrap Over Woman; Both Are Arrested

Two young men giving their names as Lamon Farquhar, aged 25 years and Clyde Whitman, aged 25 years, were arrested by the police shortly after Sunday midnight and locked up at the city jail on charges of fighting.

The pair staged a lively fight on Chillicothe street near Third, and the trouble resulted from a personal encounter between Whitman and a young woman named Evelyn Thompson. Farquhar interceded for the girl, according to stories told the police.

Whitman got the worst of the argument, being knocked down several times by Farquhar and severely punished before others interfered and stopped the fight. Whitman's lip was severely cut and he suffered other cuts about the face and head and his wounds bled profusely.

Whitman was later released on bond and a physician attended his wounds.

"Red" and I are good friends and were kidding each other in Paul Copeland's place at Ninth and Chillicothe street. Suddenly "Red" disappeared, and when he returned, he motioned for me to come outside. I stepped out and without saying another word to me, he began cutting me. McKinley told a Times man last night. "There was no argument between us so far as I know," Clifford appeared in police court Sunday morning and gave himself up.

He was released on a \$50 bond and will be given a hearing before Judge Swann on a charge of cutting with intent to wound.

## Patrol Wagon In Accident

The old police patrol was brought into play Saturday night when Buck Kennedy started a fight at his home, 1722 Eighth street, but it failed to head a hurly call flung by Motorcyclist Stanley Schreder.

While being driven to Eighth and Murray streets by Fireman George Smith of the East End company the patrol wagon was of course put out of commission and a Buick car had to be pressed into service to convey Kennedy and his two pals to the police station.

# Wilson Sends Inquiries To France And Harding On French Overtures To Republican Nominee

## President Calls Attention To The Grave And Extraordinary Inference To Be Drawn From Statement

WASHINGTON, D. C., October 18.—President Wilson today directed inquiries to both the French government and Senator Harding as to the Republican candidate's recent statement that he had been approached "informally" by a representative of France, and asked to lead in the formation of an association of nations.

The inquiry to Senator Harding, which was in the form of a letter, was made public at the White House. At first officials there refused to deny or confirm that an inquiry also had been sent to the French government, but subsequently Secretary Tumulty announced that such action had been taken.

Mr. Tumulty would not say what from the inquiry to the French government had taken nor whether it had been communicated through the embassy here or through the American ambassador at Paris.

Quoting from a dispatch dated St. Louis, October 16, purporting to report the statement of Senator Harding, the president said:

"I need not point out to you the grave and extraordinary inference to be drawn from such a statement, namely, that the government of France, which is a member of the League of Nations, approached a private citizen of a nation which is not a member of the league with a request that the United States lead the way to a world fraternity."

Declaring that the state department had always found the government of France most honorably mindful of its international obligations and punctiliously careful to observe all the proprieties of international intercourse, I hesitate therefore to draw the inference to which I have referred unless I am assured by you that you actually made the statement."

The letter of the president to Senator Harding followed:

"Eighteenth of October, 1920.

"My Dear Sir:

"In the New York Times of yesterday, Sunday, October 17, 1920, I read a statement dated St. Louis, October 16, which purports to report certain public utterances of yours. In it occurs the following:

"Replying to criticisms of his position for an association of nations, he said in a rear platform speech at Green Castle, Ind., that he already had been approached 'informally' by a representative of France, who asked that the United States lead the way to a world fraternity."

"I write to ask if this is a correct quotation and if you really said what is there attributed to you. I need not point out to you the grave and extraordinary inference to be drawn from such a statement, namely, that the government of France, which is a member of the League of Nations, approached a private citizen of a nation which is not a member of the league with a request that the United States lead the way to a world fraternity."

"The department of state has always found the government of France most honorably mindful of its international obligations and punctiliously careful to observe all the proprieties of international intercourse. I hesitate therefore to draw the inference to which I have referred unless I am assured by you that you actually made the statement."

"Very truly yours,

"WOODROW WILSON."

MARION, O., October 18.—Senator Harding has declined since his Green Castle speech to elaborate on the statement that France had sent a spokesman to him asking that America take the lead in the formation of an association of nations. Beyond repeating that the suggestion was made "informally," the Republican nominee has indicated that he would not make public any further particulars.

Officials at Harding headquarters said President Wilson's inquiry on the subject had not been received when it was made public today in Washington. It was said a public reply probably would be made by the senator as soon as the message had reached his official residence.

The Republican nominee may have a reply to the president to make public tonight. It is understood that his answer will declare that the French government, acting as such, did not violate any of the diplomatic proprieties, and will call attention that the government was not named in the nominee's remarks.

## ONE OF ELEVEN CORK HUNGER STRIKERS DIES

AUTHOR TO DO THE "I WILL" ONCE MORE; PICKS A FILM STAR FOR FOURTH MATE

Willard Mack, author and playwright, has practically announced his engagement to Barbara Castleman, noted beauty and motion picture star. Mack already has been married three times. His first wife was Maude Leone, an actress. His second spouse was Marjorie Rambeau and his third Pauline Frederick, stage and screen star.

CORK, October 18.—The death last night of Michael Fitzgerald, first of the 11 hunger strikers in the Cork jail to succumb to the results of their fast of more than two months, probably will have an extremely bad effect upon the other hunger strikers, according to the jail doctors today.

Although the men occupy separate cells, it is difficult to keep news of what is happening from reaching them.

Joseph Murphy, Sean Hennessy and several of the other fasting prisoners, are now so low that the end is expected shortly. Hennessy's father, who was visiting the prison yesterday, said he and a number of other relatives on learning that Fitzgerald was dying, began reciting the rosary, but before they had finished Fitzgerald was dead.

CORK, Oct. 18.—The first death among hunger strikers in Cork jail occurred Sunday. Fitzgerald died at 9:15 o'clock last night, having fasted sixty-eight days.

The condition of Fitzgerald and Murphy had become so grave that, with the consent of the other hunger strikers, the prison doctors were permitted to give Fitzgerald medical treatment. A Cork specialist also was called in.

Fitzgerald was one of the 11 men on a hunger strike in the Cork jail whose cases for a long time have been the source of wonderment on the part of the medical authorities. Nearly a month ago Dr. Pearson and Dr. Battiscombe the jail physicians, expressed profound amazement that the men who were abstaining from food were alive and conscious. At that time the physicians said that except for the devotion and care of the nuns in attendance upon the prisoners it was certain that several of them would long since have been dead.

Severely Emaciated

All the hunger strikers were declared to have been reduced to a severe degree of emaciation. The facial emaciation of Fitzgerald at the time was declared to be most pronounced.

Fitzgerald was arrested for shooting Private Soldier Jones outside Fermoy church on September 7, 1919. (Continued on Page Six)

## IN 3-CORNERED GOVERNOR RACE

John Maynard Harlan.

John Maynard Harlan is running for governor of Illinois as an independent Republican. The regular G. O. P. candidate, Len Small, is distasteful to a large number of Republicans outside Cook county. Harlan did not enter the race for governor until after he had been promised powerful Republican support. The split in the opposition has given hope to Illinois Democrats.

## BOLSHEVIK ARMY CRUMBLING FAST

SEBASTOPOL, CRIMEA, October 18.—(By the Associated Press).—Following the defeat of Soviet forces by General Wrangel's army at Simferopol, two Soviet regiments stationed in the village of Biskop, held a meeting and decided to surrender, according to an official report. They took this action in view of the fact that they were without food, shoes and clothing. Bolshevik authorities are reported to no longer conceal the fact that their army is dissolving and that a winter campaign is impossible under present conditions.

## Red Flag Flown In Rioting In White Hall

LONDON, October 18.—Disorders mounted police were called out to assist the regulars.

At least two of the police and several civilians were injured in the early attempts of the crowd to get through the corridor. Finally the crowd began to throw stones. The parapet on one side of Downing street also collapsed during the crush.

A number of persons were injured when a crowd headed by the red flag of the Tottenham district Socialist and labor party made a determined rush and tried to break through the police. Eventually the red flag was captured.

A small party of demonstrators went to the neighboring Trafalgar Square, set up a red flag, sang the "Internationale" and cheered Lenin and Trotsky. No trouble developed here, however, the police not interfering.

Fifty injured persons were given treatment when the trouble ended. Twenty of these were sent to hospitals.

## Search For Sing Sing Fugitives

OSSENING, N. Y., Oct. 18.—Sing Sing prison keepers, reinforced by police and civilian volunteer posses today continued in search in four states for George Stivers and Marcus Dargatzis, two "trusty" convicts who on Saturday night made a spectacular break for liberty.

Defeat was expressed by keepers that the desperadoes had tried to reach Rhode Island or Massachusetts, and warnings were sent broadcast to police of those states, as well as Connecticut and New York.

During yesterday, the men, riding in a stolen automobile, held up several different garage keepers and other citizens in Connecticut from whom they took citizens clothing, gasoline and food.

## ENGLISH HOPEFUL OPPOSING FACTIONS WILL REACH TERMS

LONDON, October 18.—One effect of the coal strike upon financial London has been the weakening of the pound sterling, which has dropped to \$3.44 on buying orders to cover actual and prospective coal shipments from United States to Europe. The effect has already been seen on continental exchanges, all of which moved against Great Britain late last week and which were again slightly weaker today.

Persistent reports of efforts to settle the coal miners' strike partly relieved the spirit of anxious uncertainty of the British nation today. For the moment, these reports seem to have greater basis in hope than in actual information.

John Robert Clynes, former food controller, and one of the most moderate of the labor leaders, has expressed confidence in a settlement within a week. If both sides could be brought together to discuss calmly the controversy. He advocates as a basis of agreement the granting to the miners of half their demands and the submission of the remainder to an impartial tribunal.

J. H. Thomas, general secretary of the National Union of Railwaymen, also has made moderate statements and both these men are relied upon to (Continued on Page Six)

## WHISKEY FOR DEMOCRATIC DELEGATES, ALLEGED; PALMER ORDERS PROBE

WASHINGTON, D. C., October 18.—Attorney General Palmer today directed the United States district attorney at San Francisco to make a full and complete investigation of reports that 10 barrels of whiskey and gin were withdrawn from bond at San Francisco for the entertainment of the delegates to the Democratic National Convention.

At the same time Mr. Palmer in a telegram to Acting Mayor McMoran, of San Francisco, rolled upon that official rider to produce the proof of or policy to produce a statement attributed to him that Mr. Palmer knew all about the whiskey transaction at the time.

Mr. Palmer's message to the acting mayor was predicated upon special dispatches from San Francisco appearing in newspapers in Washington and other cities yesterday morning.

The dispatches said facts as to the withdrawal of whiskey had been disclosed by a grand jury investigation.

## PLAN CIVILIAN TRIBUNAL IN THE REORGANIZATION OF BASEBALL LEAGUES

CHICAGO, October 18.—Discussion of plans for the reorganization of baseball under a "civilian" tribunal, was started here today at a joint meeting of National and American League club owners. All the members of the National League, headed by their president, John A. Bergler, were present, as were representatives of the Chicago, New York and Boston American League clubs.

R. B. Johnson, president of the American League, had announced he would not attend the meeting and the five members—Washington, Cleveland, St. Louis, Detroit and Philadelphia—who aligned themselves with him in the fight last winter, were not expected to attend.

The chief topic today was the discussion of the Lasker plan of reorganization, which if adopted would place control of professional baseball under a "civilian" tribunal of three men not interested financially in the game. This would result in the doing away of the national commission which body has been without a chairman since the resignation of August Herrmann, of Cincinnati, last fall.

The reason given by Mr. Johnson for not attending the meeting was that he did not think it advisable at this time to discuss reorganization because of "startling evidence he thought might come before the Cook county grand jury when it reconvenes tomorrow to continue its investigation of the baseball scandal."

The conference is the outcome of suggestions made following grand jury disclosures of crooked work in the 1919 world's series.

## COX URGES YOUNG VOTERS TO DISREGARD PARTISANSHIP AND VOTE AS AMERICANS

SYRACUSE, N. Y., October 18.—Governor Cox today opened his second eastern campaign with an address here to first voters, urging them to disregard partisanship and to vote as Americans.

"Americanization," said the Democratic presidential candidate, "is but another word for construction. Americanization is not selfishness. It means that we have this freedom of America that wherever in the whole world the name of America is mentioned it shall mean honor, loyalty, progress, humanity and peace. To shout 'America first' and then oppose nothing America first throughout the world, is to turn our backs on progress and on the ideals which the framers of our great constitution wore into the soul of America."

"Therefore, when I talk of the League of Nations, I am presenting no new spirit but am simply endeavoring to keep the faith of America."

Stating that first voters represent a new generation, Governor Cox said that civilization was like a "relay race," each generation taking the ball from the preceding and contributing its share toward world progress.

"Some people," said the governor, "are not willing to take the ball and thereby lose the race by slipping back. There can be nothing more reassuring than that this great army of voters composed of millions of young men will approach the ballot box this fall with the same patriotism with which they stood in the front trenches."

"I find that the young men and the mothers will insist that we become a part of the League of Nations. The young men who are first voters will find themselves in distinguished company this year for the mothers of America have been given the rights to which they are entitled. I have no doubt but what the mothers of America will vote in the forthcoming election. I have a single doubt what the young men will do. Mother and son link the two generations which stand for a peace won by the sons and made permanent by the mothers of America."

Governor Cox's program today called for his spending the morning here, an afternoon address at Rochester and a night meeting at Buffalo.

## "Some One Must Finance This Year's Crop"

WASHINGTON, D. C., October 18.—Declaring that "some one" must finance this year's crops, George I. Hampton, managing director of the Farmers' National Council, today wrote the federal reserve board suggesting that in view of that it definitely decides against making an effort to get its members to discount farm paper and warehouse receipts, the governor borrow money and deposit it in national banks to be loaned to farmers at not more than 1 percent in excess of the rate the government pays.

Farmers thus would be able, Mr. Hampton said, to hold at least a part of their crops until they can get cost of production plus a reasonable profit, or until there is an effective consumption demand.

Either the primary producer or those who are seeking to get control of farm products and who are able to get credit from some source must finance the crop, the letter said.

"The men seeking to corner agricultural products will not reduce the prices at which they sell crops any longer than they have to," Mr. Hampton declared. "The law of supply and demand will be unavailing in case these hoarders can obtain an embargo on importation of farm products in crude condition as it is intended they intend to do."

## Foreign Born Will Swell Harding's Majority In Western New York, Says Lawrence

BY DAVID LAWRENCE  
(Copyright by Times Publishing Co.)  
EFFALO, N. Y., Oct. 18.—Western New York has so much to do all ways with the cutting down of the Democratic majority gained in the Tammany districts that one need not search further than Erie County for the reasons why New York state will go heavily Republican this year.

Germans, Italians, Poles, Slovaks, Hungarians and Russians make up a foreign born population that exceeds the native born. It is easier to assume that some of these groups will favor the Polish vote would be Jewish, affected by foreign issues in which the Wilson administration has become involved for or against the home countries had investigation among the last units belong to the conclusion that domestic questions, especially the high cost of living, have had and will have as much to do with the exercise of the ballot on election day as the grievances growing out of the European war.

The campaign among the foreign born has not been extraordinary. Certainly it has not been as intense as it was in 1916. On the other hand, the Democrats have inherited much more trouble than the Republicans have acquired and it is hardly an exaggeration to say that the bulk of the German vote, the Italian vote, and even the Polish vote will go to Harding.

If Wilson were a candidate, a leader of the Poles told the writer, he would be the Polish vote would be Jewish, affected by foreign issues in which the Wilson administration has become involved for or against the home countries had investigation among the last units belong to the conclusion that domestic questions, especially the high cost of living, have had and will have as much to do with the exercise of the ballot on election day as the grievances growing out of the European war.

## You Risk Your Life Every Time You Take Cold

The common cold is the most prevalent and costly disease in the world. In the sum total of death, suffering, inconvenience, absence from work, and decreased efficiency it causes more loss than all wars and all other epidemics.

Although colds are contagious they are preventable and curable.

The United States Public Health Service offers free a small paper that tells all about colds and how to avoid them.

When you learn to prevent, taking cold you are not only looking after your own personal safety and efficiency—you are saving national loss.

A copy will be sent to you free if you send your name and a two-cent stamp for return postage.

Doctors have found by experience that the best remedy for colds and influenza can be depended upon for full effectiveness when the liver is made thoroughly active. That is why the first step in the treatment is the new nauseless calomel tablet called Calotect, which is free from the sickening and weakening effects of the old style calomel. Doctors also point out the fact that an active liver may go a long way towards preventing colds and influenza and is one of the most important factors in enabling the body to successfully withstand an attack of a cold or flu.

One Calotect on the tongue at bed time with a swallow of water—that's all. No salts, no nausea for the slightest interference with your eating, pleasure or work. Next morning your cold has vanished. Your liver is active, your system is purified, and you are feeling fit and with a hearty appetite for breakfast.

Druggists sell Calotect only in original sealed packages, price thirty-five cents per box. The money will be cheerfully refunded if you do not find them delightful.

# Harding To Spend Balance Of Campaign On "Front Porch" At Marion Home

MARION, O., Oct. 18.—Senator Warren G. Harding arrived home today after his strenuous trip through Tennessee, Kentucky, Indiana, Illinois, and Missouri. The candidate expressed gratification over his reception en route which concluded with a speech in St. Louis where he was given a twenty-five minute ovation by a crowd of more than 15,000 persons. Only one more trip will be made by the candidate outside his own state during the remainder of the campaign when he will make speeches in Buffalo and Rochester on the afternoon and evening of Oct. 21. Senator Harding will be the principal speaker at a mammoth outdoor barbecue at Jackson, in southern Ohio, on October 20, and if tentative arrangements work out, will wind up the campaign with a speech in Cleveland on the night of October 27.

**Pumped Through The System By The Heart It Sustains The Muscles And Tissues**  
**Pepito-Mangan Helps Blood**  
**Keep The Quality Of Your Blood At Its Best—It Means Vigorous Health And Ability To Accomplish**

Blood acts like fuel. Pumped through the body by the heart, it sustains the muscles and tissues. It renews them. It feeds the brain—the tissues of the eye and face. That is why people look so pale and lifeless when blood is impoverished. The body tissues are being supplied with weak fuel. The blood has not enough red corpuscles. You would not eat poor cornmeal. You would not let the fuel that supplies sustenance to your entire body be inferior. Have good blood. Improve the quality and keep it at its best. If you look pale and feel weak, if you have lost your enthusiasm and energy, if your blood is clogged with poisons, your system is being fed with a poor grade of blood. That is no way to go around. If you are not at your best, get at the source of the trouble right away. Put on and to half-living. Take that ideal tonic, Pepito-Mangan, to tone up your blood and purify it. Get the full enjoyment out of living. Breathe fresh air, take exercise. Be sure to ask for "Gude's" Pepito-Mangan. It comes in convenient tablet form and in liquid. One has the same medicinal value as the other. There is only one genuine "Pepito-Mangan," and the name "Gude's" is on the package.—adv.

The Royal Workers' Class of the Christian church will meet Thursday evening at the home of Mrs. Clarence Staten, of Stanton avenue. The Bible School Rally and Church picnic at the Immanuel Baptist church was a marked success yesterday. Over 150 reported at Bible School and more came in later. The classes met in the auditorium and the service was taught by the pastor. The lesson was continued into the Morning Worship as is the custom of the church and the Evangelist, Rev. R. L. Champion of Shelby, O., made his first address.

A portion of the Martin Band made its appearance and furnished music until the dinner was served in the dining rooms. It was impossible to serve all at once so the smaller classes were served first. Some 90 being seated at the first seating. When the other classes were about to be served the Hon. C. C. Kearns and his secretary, Mr. Bauer, came in and met with the people and ate dinner with them. Rev. Allbaugh was pastor of the Baptist church in Mr. Kearns' home town and both enjoyed the short time together.

At the Rally Day Service in the afternoon the boys from Martin's Band furnished special music. Each class furnished something for the program. Special mention must be made of the Boy Scouts' Campfire song for it seemed that the younger boys were going to crowd into the campfire circle with the Scouts. The Class of Promise put on a program "The Hebrew Sisters" with costume, verse and song which told of the part that the women of Israel have done in the world's work. This number deserves special mention. The Herald of Hope Class, led by Mrs. Anna "Ma" Jenkins carrying a large American flag, came up on the stage and after singing a patriotic number the Rev. M. H. In the evening, long before the appointed hour, the church was filled with a voluntary song service and when the service had been opened by the pastor as song leader, the Rev. R. L. Champion gave his first sermon of the meetings which are in progress. These meetings are to continue with Rev. Allbaugh as the reader of song and Rev. Champion as speaker each evening and all are invited to attend these services at 7 o'clock.

## COURT HOUSE

Jenkins Sentenced To Penitentiary. Melvin Jenkins, aged 25 years, notorious police character, was sentenced to the penitentiary Monday when he was brought before Judge Thomas in Common Pleas court on an indictment charging him with larceny in connection with the theft in September 1919 of best clothing from Pearce Cecil, inmate resident.

The indictment was returned last February and Jenkins at the time pleaded guilty but his case was passed and he was released on his promise to support his children who are inmates of the local Children's Home. He kept up the payments only for a time and then fell into his old tracks of stealing. Following his arrest a few weeks ago Jenkins confessed to participating with his brother Delbert Jenkins in the wholesale theft of bicycles in this city during the past three months and for which the latter was sentenced to the Mansfield Reformatory.

Fetch Up Troubles; Suit Dismissed. The parties to the divorce suit of

Henry Collier against Elizabeth Collier, New Boston couple, having come to an amicable understanding and reconciled their troubles, an entry was filed in the office of the clerk of courts Monday dismissing the action. They were married March 4, 1917.

## Divorce Suit Dismissed

A suit for divorce brought in Common Pleas court on Nov. 13, 1918, by Thessa Newman against James N. Newman was dismissed Monday when Attorneys Miller & Seal informed the court that the couple are now living together at Cleveland. Newman is a

former local telephone lineman and was employed by the Portsmouth Telephone company during his residence here.

## That Look of Health

How we long for it!

You see it all about—and wonder. That look of health. That picture of happiness. How you crave it for yourself!

You need not. Millions now know the secret of health. Millions follow a simple, basic rule. Medical science recognizes this rule as the foundation of health. Physicians everywhere now prescribe this way to keep well.

Ask your doctor the underlying cause of most human ills. He will tell you constipation. Most men and women, it is true, have known this for years. But what they have not known is the need for quick and complete results from a physic.

### Ask Your Doctor

Ask your doctor, when your system becomes clogged, how quickly the waste matter should be removed. His answer will be—"at once." The reason is plain to those who know: Germs multiply by millions in a clogged intestinal tract. Poisons are rapidly absorbed by the blood.

Foul breath, coated tongue, lassitude, muddy skin often manifest themselves in surprisingly short time. Worse than that, this condition is the common forerunner of colds, headaches, high blood pressure, rheumatism, influenza, pneumonia, and other dread diseases.

When you need a physic, time is the first consideration. You cannot afford to wait a day—or even half a day—for a physic to act.

Your physician prescribes it

That is where old-fashioned cathartics failed. They were slow in action, and uncertain of results. Eminent physicians today recommend a harmless mineral water, because it is quick and certain in action. This water is known as Pluto. It acts unfailingly—and it works fast. Its efficacy is due to the minerals it contains.

### Due to Minerals

These minerals soften the waste accumulation. The water helps to flush it gently away. The action is pleasant and gentle—entirely free from the griping effects of old-fashioned cathartics. Results are sure, prompt and complete.

Get from your druggist today a bottle of Pluto Water. Try it in your home. Use it first thing in the morning, or before meals. Learn for yourself its prompt, complete results. Note its pleasant, harmless action. See how quickly it restores normal, healthy activity. You will feel like a new person!

Thousands of men and women take Pluto Water at regular intervals, regardless of whether they are constipated. In this way they avoid dangerous constipation.

Pluto water is equally effective for children and grown-ups. As a laxative take 1/4 tumbler of Pluto; as a cathartic, 1/2 tumbler; as a purgative, 3/4 tumbler—add hot or cold water to fill glass. Pluto Water in your home at all times is the best of health insurance. Bottled at French Lick Springs, Indiana.

## Candy Cause Of A Blaze

# TO RESUME CAMPAIGN INVESTIGATION TODAY

ST. LOUIS, Mo., Oct. 18.—The senate committee investigating campaign expenditures today resumed its inquiry here into the Democratic pre-convention campaign in Missouri. The committee planned to deliver further in the activities in behalf of Attorney General Mitchell Palmer and summon Edward F. Gelfert of St. Louis, national committeeman. Payment of expenses of delegates to the Democratic state convention at Joplin and the national convention at San Francisco was under investigation.

According to testimony at a previous hearing, Gelfert distributed about \$3,000 among delegates to the Joplin convention to help defray expenses. He has formally denied, however, that

any financial assistance was given to the San Francisco delegation. The campaign of Senator Selden S. Spencer, Republican member of the committee and his Democratic opponent, Theodore L. Long, also will come within the scope of the inquiry, according to Senator James A. Reed, Missouri, who is a member of the investigating body.

## Race Ended When Levernier Collided With Auto

A young man named Frenchy Levernier was arrested at Second and Market streets Sunday night by the police on charges of intoxication and disorderly conduct. Arriving at the police station the prisoner jumped from the patrol and made a dash to get away with officers in hot pursuit.

The race was soon ended as Levernier failed to notice an automobile parked in the alley and collided with the machine which halted his progress until the officers came up and nabbed him again. The prisoner was locked up and is held pending his hearing in Municipal court.

## "Gas" Hearing Tuesday

The public hearing on the proposed increase in gas rates which was to have been conducted at the chamber of Commerce Monday at two o'clock by a special committee from City Council, headed by George M. Osborne, Mrs. Gabel and Edward Westphal and City Engineer S. Anselm Skilton, has been postponed until Tuesday at 12:30 when the hearing will be held at the Elk Park following the luncheon of the board of directors of the chamber of Commerce.

It is expected that the directors will take some definite action in regard to the proposed increase.

## TROUBLES FROM MY AGE

Mrs. Baney tells how Lydia E. Pinkham's Vegetable Compound Helped Her Through the Change of Middle Life.

Rochester, Ind.—"My troubles were from my age and Lydia E. Pinkham's Vegetable Compound helped me wonderfully. I took doctor's medicine and other patent medicines, but the Vegetable Compound has helped my nerves more than anything I have ever taken. I am thankful to the one who recommended it to me and will surely do my part in telling others what the medicine has done for me."—Mrs. Lillian Baney, 463 East 9th St., Rochester, Indiana.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, drowsiness, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness should be heeded by middle-aged women and let Lydia E. Pinkham's Vegetable Compound carry them safely through this crisis as it did Mrs. Baney.

### ALL EYE STRAIN SHOULD GET ATTENTION.

There is no such thing as eye strain that is slight enough to be neglected. Any error of refraction that is important enough to produce eye strain is important enough to demand correction. And here is another point—important is gained by putting it off from time to time. In cases of eye strain DO IT NOW should be the practice. We correct all degrees of eye strain with glasses.

## 13 Eggs A Day From 17 Young Pullets

Mrs. Niles Starts 4-months Old Pullets Laying. Tells How.

Early in November, I bought a package of Don Sung and started giving it to 17 May pullets. In the first 30 days they laid 125 forty eggs. All through December I got 11 to 13 eggs a day. Since Nov. 2, I have laid 1,000 eggs. Mrs. Niles found how to start young pullets laying and keep them laying all winter. The same method helps her through the month and starts them laying. You can keep this at our risk. Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit, simply tell us and your money will be cheerfully refunded. Don Sung (Chinese for egg-laying) is a scientific tonic and conditioner. It is really given in the feed, improves the hen's health and makes her stronger and more active. It tones up the egg-laying organs, and gets the eggs, no matter how cold or not the weather. You can obtain Don Sung from your druggist or poultry remedy dealer, or send \$1.00 (includes war tax) for a package by mail. Bennett-Dugger Co., 711 Columbia Bldg., Indianapolis, Ind.

MANY SUITS SHOW THIS LOOSE PANEL EFFECT IN BACK

The new fall suits show many touches which have not been seen for some time. Embroidery and fur trimmings are two of the most notable features. The fur usually trims the collar and often forms a belt or pocket patches, as on this pretty suit of peach bloom. Another feature which is often seen is the loose panel back effect with a belted front. That is a very effective feature of this suit.

## MISS DOLLY WISE

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Dolly—I see where the mothers of the Campbell Avenue school and the teachers of the same school want some new play ground equipment. As far as during school hours that is all right. But after school and on Saturday and Sunday if the mothers of the girls knew where their daughters were they would not approve of it. I live near the school and it is a shame the way the young girls and boys meet there and use such language, and again we put up with all the noise of so many children during the week and when evening comes we would like to have things quiet as well as anyone else. They took credit out of the parks so the couples could not spoon, but if you could watch the school yards you would agree with me. I have often thought of telling the police but we never see one in this neighborhood. After the teachers leave

the building the yard fills up with boys and girls who stay there until a late hour of the night and if you tell them to quit using such language they turn on you and say the most awful things. Now I just said these things to give the mothers a tip and if there is not a stop put to it we intend to take a higher step and see what can be done. There is a man that works at the mill and comes home at 3 o'clock in the morning and there were two couples in the yard. Now Dolly if this is not stopped who would you advise us to attend to it. If you have any good go around and ask all the neighbors.

ONE WHO KNOWS  
Dear Miss Wise—We are two girls 14 and 15 years of age. I am a brunette though light complexioned with dark brown eyes. I am neither tall or short. Some people tell me I'm pretty but I think I am awful ugly. I had so many misgivings that made me cry and left scars on my hands. Will they ever go off or is there any way to get them off. How do you take marks off of your hands. I have three. My thumb is dark complexioned and a dark brown red. She is about the right size for a girl of her age. Now Dolly she would like to know how to cure sores on her lips. How should we wear our hair. It is not a bit curly. Will bangs be popular this year.

TWO THUMBS E. AND T.  
The mosquito bites will soon disappear. You could have a physician remove your warts or apply vasoline and cure a day until they disappear. Oil of chamomile will also remove warts. I suppose the sores on your lips are from old sores or fever blisters, and about the best thing you can do with a fever blister is to let it run its course. Wear your hair the same as other girls your age. Newly all children wear bangs.

Dear Dolly—I like your advice and I am coming to you again. I am 21 years old and in love with a fellow. I am not happy company with him but I love him often and he loves me.

Dr. and Mrs. H. A. Maffey have as houseguests this week, Mrs. George Tyrrell (formerly Gaffey) of Los Angeles, Calif., and Mrs. George Gaffey of Newport, Ky.

Meet us at Mrs. E. Hildt's.

## BILLY WILKER

BY FRANCES TREGO MONTGOMERY

When Terrence Bull Pup received Billy Wilker's letter asking about the circus, he was of two minds, both pleased and mad.

At first he was inclined to accept Billy's word of friendship and flattery, the true expressions of his warm heart, and write him a reply with a cordial invitation to come to Springfield at once, stay for a few days and be his guest at the circus.

On reading the letter a second time it occurred to him that Billy Wilker might be trying to make use of him and that all his soft remarks about true friendship and his good looks were just so much bait with which to catch what he wanted.

He remembered that in the old days Billy Wilker was in the habit of working his friends, and he also recalled the fact that his last letter, in which he had suggested joining Billy in his new home at Cloverleaf Farm, had never been answered, a neglect on the part of Billy that cut deep and rankled whenever he thought of it.

More than that, Terrence did not like and had no sympathy with this talk about turning over a new leaf. Terrence Bull Pup knew well that he had turned over no new leaves. In fact, if the truth must be told, he was known all up and down Maiden Lane, the street on which he lived, as "the terror."

"No," he said, after looking at his letter from all sides. "I'll not be taken in by a boy old Billy this time. If he imagines he can fool me by his flattery and true friendship dodge, he'll find himself greatly mistaken. Anyhow his letter gives me a chance to give him a piece of my mind straight and I'll do it too."

So he wrote as follows:  
Springfield, June 12th, 1908.

Dear Billy:  
Your letter just received. I can't say that I was very pleased to get it. If you had answered my last letter I might feel different.

Of course, if you come to the city to attend the circus, I shall run you off when you knock at my door. But

Mrs. George Martin of Sixth street has returned from Huntington, where she was the guest of her sister-in-law, Mrs. H. B. Martin. Following is an account on an "At Home" given at Mrs. Martin's home Saturday.

With Mrs. H. B. Martin of the south side, presiding as hostess, one of the most delightful of the week's affairs was enjoyed Saturday, when this charming hostess, who moved to this city within the past year, received her friends at a tea given from three until five o'clock. Quantities of oysters and shrimps filled the artistic baskets and tall standards, which decorated the spacious rooms. At the door little Miss Claire, the attractive daughter of the household, greeted the guests who were next received by Mrs. D. B. Hewitt, who invited the callers into the drawing room, where they were welcomed by their hostess, who received with her sisters-in-law, Mrs. L. F. Franklin, of Cincinnati, O., and Mrs. G. W. Martin, of Portsmouth, O., and Miss Elizabeth Hegg. Miss Alta Newcomb and Miss Irene McLeod presided at the punch table, which was arranged in the hall, and Mrs. Arthur B. Emmons asked the guests into the dining hall, which was beautifully decorated. Deftly prepared by Mrs. E. C. Harris, Mrs. W. E. Harris and Mrs. A. Kopp. Refreshing ices with cakes and confections carrying out the color scheme of pink and white, were served. At the coffee urn, Miss Little Hegg presided. More than one hundred guests called, thus enjoying an occasion of unusual pleasure. At the close of the evening the house was served in elegant luncheon—Huntington Herald-Dispatch.

Alfred Millard returned to Ohio State Monday after spending the week end with homefolks.

The Portsmouth Group of the Woman's Foreign Missionary Society, which was to meet at Old Town church Wednesday, Oct. 20, has been postponed until Saturday, October 23, to meet at 10:00 a. m.

"Well," said Billy, as he finished reading this letter. "If that ain't the very worst! I must have rubbed his fur the wrong way. He always was the meanest dog I ever knew. This settles it—I'll never associate with him again."

While Billy talked big, he had a sneaking feeling all the time that for once Terrence Bull Pup had the best of him. His conscience was not altogether clear about not having answered his letter.

"At any rate," he wound up, "I'll go to that old circus now if I never do another thing. I may have a chance to show that dog a trick or two. I'll start day after tomorrow."

(Billy starts tomorrow for the circus.)

### THE MOVIES

Extraordinary Double Program at The Eastland For Two Nights, Starting Tonight—First—Corinne Griffith, the Screen's Favorite in the One Big Picture of the Season, "The Whisper Market"—Second—Charlie Chaplin in His Biggest Screen, "The Immigrant". Added Attractions—Screen Snapshots and Orchestra Overture.

An unusual double program will be presented at the Eastland Theatre tonight and tomorrow showing the best of the screen's talent. Corinne Griffith, in her newest and most recent picture, "The Whisper Market," and the one and only, Charlie Chaplin, in "The Immigrant," one of the best laugh-makers.

Adventure, tropical locale, action, thrilling situations and melodrama interwoven into a story called "The Whisper Market" give Corinne Griffith a role worthy of her reputation as the best dressed woman of the screen and the girl with a thousand facial expressions. It affords her a role unlike her previous efforts and one in which she shines. She plays the wife of an American consul at Rio de Janeiro, the slight partner in a modiste establishment. She becomes ensnared in a blackmailing net and becomes involved with smugglers, due to her husband's neglect. A raid is made by American Secret Service men headed by her husband while she is in a compromising position. How she escapes and brings the plotters to justice makes a thrilling plot.

In addition to the two above named attractions we will also show another of the interesting screen snapshots showing pictures of the screen's famous stars around the studios. Orchestra and selections by the Eastland Orchestra is the musical feature on the program. Come early.

### HEAL SKIN DISEASES

Apply Zemo, Clean, Penetrating, Antiseptic Liquid

It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. Zemo, obtained at any drug store for 25c, or \$1.00 for extra large bottle, and promptly applied, will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress.

In skin troubles, ordinary soaps are irritating and liable to aggravate the condition. Use Zemo soap. It is antiseptic, soothing, and hastens the process of healing.

The E. W. Rose Co., Cleveland, O.

has been adapted for the screen and under the new title, "A Cumberland Romance," comes to the Temple tomorrow and Wednesday. Mary Miles Minter is the star while prominent persons in the supporting cast are Monte Blue, John Bowers, Guy Oliver and Martha Mattox. Charles Maigne, who will be remembered for "The Fighting Chance" and "The Copper Head," wrote the scenario and directed the picture, which is said to show the finest work that the star Miss Minter has ever done.

Did You Know That Harry Moray was One of the Best Ax-Swingers in America? You Ought to See Him in "The Hardest Hour," A Story of Northern Lumber Camps, at the Strand Tonight.

The scientific feminine method of leading an unsuspecting man to propose forms part of the big dramatic effect of Vitaphone's new feature production, "The Hardest Hour." This production with Harry T. Moray in the stellar role, will be the feature of the Strand tonight.

Mr. Moray plays the role of Peter Schuyler, a wealthy clubman, whom a dozen debutantes are anxious to win for a husband. One of these is Marion Dismore, who belongs to a family of high social standing but waning funds. The parents of the girl conceive the idea that a marriage of her and Peter would solve their financial problem, and enter a virtual undertaking to have her lure the man into a proposal.

Marion also is influenced into the plot by the persuasion of Lee Anstine, a social parasite who has fascinated

### HOW TO OVERCOME

That Awful Reaction Caused by Influenza

Influenza, Grippe, or any severe sickness leaves the blood poor, thin and dehydrated, and the system weak, run-down and in a nervous condition. The one great remedy to create strength after sickness is Vinol, because it contains the tissue-building elements of fresh cod's livers, added by the blood, strength and vitality making elements of tonic iron, beef epiglottic and glycerophosphates. It creates a hearty appetite, aids digestion, quickens the circulation, and every nerve organ and muscle of the body is soon filled with new strength, energy and vitality.

There are many people in this city who will tell you from personal experience what Vinol has done for them.

Lee, Lee wants the girl to capture Peter, get a share of his wealth, then divorce him and return to the former. The picture closes with one of the most remarkable climaxes ever put upon the screen. Our two reel subject tonight will surprise you.

### Skin Sufferers Do Not Want Mere Temporary Relief

Of course, if you are content to have only temporary relief from the terrible itching, burning and burning of fiery, flaming skin diseases, then you are satisfied to remain a slave to ointments, lotions and other local remedies applied to the surface of the skin. Such form of treatment, however, can make no progress whatever toward ridding you of the discomfort which often becomes a real torture.

But if you desire to free yourself from any form of skin disease, first of all you must realize that any disease must be treated at its source. Internal poisons must be removed.

# N. & W. Smoke House Team Defeats Catlettsburg, 3-7

PENNY ANTE

The Afternoon Game

## Hard Fought Game Is Treat For Football Lovers

Portsmouth's Sunday football eleven had a hard fought game from Catlettsburg on the Millbrook gridiron Sunday afternoon. The score was 13 to 7. The local eleven played a much better game of football than they displayed against the Chillicothe Athletic Club team a week ago. The N. & W. Smoke House team worked like a machine Sunday and showed plainly they had been practicing hard.

Although the visiting eleven only had one man right end, Huggins, who performed in first football style, the Catlettsburg boys gave the locals a tight game and threatened to score several times in the first quarter.

Portsmouth scored near the end of the first quarter when a fake half back run turned out to be a pass over the goal. A Catlettsburg man blocked the pass but the local quarterback, Hopkins, caught the pigskin before it touched the ground, the pass resulting in a touchdown. A touchdown for Portsmouth. Between halves the Catlettsburg coach and Portsmouth players got together and after consulting the rules book decided the play was illegal and that the score should not count as the pass over the goal was on the fourth down.

In the second quarter Portsmouth worked the ball back down the field to Catlettsburg's two foot line and there lost the ball when the Upland closed the game was passed.

With the score nothing to nothing the local eleven in the second half determined to make up for the lost scores. They did not waste any time and after Catlettsburg kicked off the locals worked the ball down the field by a series of line plunges. Chalmers carried the ball most of the time for big gains. Montgomery and Pearce also carried the ball between times, giving them a chance to get his wind before taking the ball again. With the goal five yards away Huggins went through the heavy line for a touchdown and Montgomery kicked goal.

The last quarter was only a few minutes old when Hopkins made the second touchdown. The ball was on Catlettsburg's own 25 yard line when they attempted a pass. Hopkins intercepted the pass and made the 25 yards to the goal, and Webb upsetting the only threatening tackle. Huggins who seemed to be in every play, broke back for Portsmouth in the first half when he went back into the backfield when the pass was put into the backfield where he showed as much ability as he did at end. He made the only big gain for the visitors and their only touchdown. Huggins started the play for the touchdown by skirting left end for 15 yards this being followed by short passes and line plunges that carried the ball to the 10 yard line from which place Huggins carried over on a line plunge. Huggins also kicked the goal.

"Red" Ford who played halfback for the visitors, formerly played Sunday football here.

The locals were well pleased with the crowd, 600 turning out and with such support given the team on attempt will be made to have all games played at home this season.

## Rio Grande Plays P. H. S. Team Here Next Saturday

Next Saturday the P. H. S. eleven will clash with the fast Rio Grande College team on the Sixteenth street field.

The locals will be put through stiff practice sessions every afternoon and will not be let off to recover from bruises sustained in Saturday's game at Dayton when State High won 52 to 0. The assistant coaches who are helping Coach McCann materially, say that the locals need the practice more than they do the rest and intend to work the process out through hard practice. A general meeting of the team will be held this afternoon before they go to the field and the weak points discovered in Saturday's game will be pointed out.

Rio Selby and Forrest Williams, former High School stars and ex-college stars, who have been watching the team carefully the last week and who made the trip to Dayton Saturday, will work with the locals this week.

Rio Grande will give the locals a real battle for they have some former college stars with them this year. They beat Huntington 26 to 7 and Saturday beat Ironton 55 to 0. Ironton and P. H. S. played a 2 to 2 tie, which shows that the 2nd and Blue will have to work hard to beat the visitors.

Saturday's game showed the locals the class of teams they had been meeting year after year in this section of the state. The Dayton coach had 35 men in uniform on the field and one seemed to be as good as the other. The Dayton men keep changing continually, thus keeping fresh men in the game at all times. The locals held well in the first quarter, Dayton scoring only one touchdown. In the second quarter they broke loose and run their count up to 24, and from then on, had things their own way, scoring almost at will. Besides being heavy the Dayton ends showed bursts of speed that carried them in front of any local tackler who would give chase.

Captain Fred Muller will be out of the game several weeks with an injured knee.

## TOTAL REGISTRATION 13,873

Official figures given out at the Board of Elections show that the total registration of electors for the November election was 13,873, a huge gain in comparison with the registration in the last presidential year, 1916, which totaled 8,810. However four precincts in the unincorporated districts of New Boston and the entire district of Scholerville have been added since that time. Subtracting the registration in these four precincts, M. N. 1 and V, which totaled 1,162, the registration in the same precincts in 1916, was 12,712, lacking only 950 of being twice as much as in 1916. The large increase in the number of electors can be attributed largely to the fact that the women were given the right of ballot.

Precinct U in Scholerville holds the honor of having the largest registration in Scioto county, totaling 603. The registration in the entire district of Scholerville was 1,026.

The registration in the 45 city precincts for the four registration days, was as follows:

## HIGH SPOTS IN SPORTS

The Dunn and Tvis Speaker were guests at a big banquet of the Elvira Chapter of Commerce Friday night.

George Carpenter, the European heavyweight pugilist champion, has pledged his wife that he will retire from boxing after a match with Jack Dempsey.

Edie Collins has certainly played a hard luck during his brilliant baseball career as far as getting mixed up in ball teams that were wrecked is concerned. He was a member of the 1914 Athletics that were later broken up by Connie Mack. And this year he was a member of the Chicago White Sox, certain members of which were tied up in the baseball scandal.

Just look this aggregation over for an all-star team:  
First Base—Baker, St. Louis.  
Second Base—Collins, Chicago.  
Shortstop—Bancroft, New York Nationals.  
Third Base—Weaver, Chicago.  
Outfield—Spencer, Cleveland; Ruth, New York; and Wheat, Brooklyn.  
Catchers—O'Neill, Cleveland and Schalk, Chicago.

George Carpenter and Battling Lerdy are still denying that their fight was faked.

The best tribute that could be paid to the Cleveland White Sox is to whether they are the champions of the game or not. It is a fact that more than one-half million more cards were sold at League Park during the past season. This doesn't seem possible but nevertheless it is true. Just what the actual attendance figures were at Cleveland for the season is guesswork. The season was a success. The season was a success. The season was a success.

Reports that Ty Cobb had been sold to the Chicago White Sox for \$30,000 and that a new team would be built around him next year, have been heard frequently in the last few days.

## JUST DOPE

The honor of making most hits in a season is now held by two players who claim or claim allegiance to the St. Louis Browns.

George Sisler makes the modern day record. Ty Cobb of the old Browns of 1907 made the old time record, which was 44 in the year named. In that year, however, there were unusual conditions in the batter, who not only was hit four times, but bases on balls were counted as "hits." Sisler's record, therefore, is rightfully considered the best of all time.

COLEMAN, O., Oct. 15—Ohio State's 1920 football team, which was to climb over Wisconsin, one of the most formidable obstacles of the fall campaign.

With four victories in seven starts against Ohio State in his credit, Coach Dan Richards of the Badgers will not get a return eleven to oppose the Hoosiers.

It'll be a battle for blood—since Richards coached the Ohio State team in 1912, the year before the Badgers were admitted to the Big Ten, while Coach Jack Wilson of the Hoosiers was a star Badger player and crew man.

Wisconsin has a big edge in points scored over Ohio with 20 against 12. It has shut out the Badgers twice. It has been whitewashed once. Last fall "Coke" Harkey, educated at

## Solvays Win A Close Game

The Portsmouth Solvay team won a close and hard fought game from Fulton at Coney Island Sunday, the count being 6 to 5.

Townsend and Jollins pitched for Solvay while Reed worked for Fulton. Reed played third base for Greenup earlier in the season but showed up well on the mound Sunday, keeping the ball back down the field.

## Otway Team Is Swamped

McDermott's baseball nine playing their last game of the season Sunday at Dayton defeated Otway by a score of 13 to 2. The McDermott lads having everything their own way.

Waltz, Sampson and Evans worked on the mound for Otway and each one was hit hard by the McDermott pluggers. Phil Jeanguant made the fortune play of the game when in the third inning he hit a home run off Waltz. The ball which went into left field was one of the longest ever hit on the Greenup diamond. Weinberg worked behind the plate for Otway. Ballengee who was in the box for McDermott held the Otway gang safe.

## At The Races

John Stager and Ruddy Moister are attending the races at Latonia and will remain there all week.

## Indian Rock Is Exposed

The Ohio river is so low that Indian Rock opposite the old waterworks plant is exposed to view for the first time in many months.

## Hand Is Burned

## NO NEED FOR HURRY

**W**ILLIAM JENNINGS BRYAN has sprung a new moral and economic proposal, nothing less than this country proceed at once to cancel the loan of ten billion dollars, made by it to the allied nations and hold the same for naught. His argument is that the allies are in no condition to discharge the debt out of their own resources, so they must impose it upon Germany, to eternal bankruptcy and throwing the whole world out of gear, imposing more wars and pestilences.

The argument is sympathetic and to some extent plausible, but we can not believe either Germany or the world would be less burdened and embittered if they were bountifully charged off. France, England and Italy would not consent to see Germany go bankrupt for the indemnity by that much. They are going to collect all they can down to the last farthing, and there'll not be half of that left, if France have the dominant say.

There is no reason at all to be in a hurry about the matter anyway. So far the Allies have done fairly well with the loan. This week they are paying two hundred millions on it—not a cent so far coming from Germany—and the world hasn't been unusually disturbed.

And here is a suggestion: If Uncle Samuel can get along without the payment of that ten billion dollars, or any part thereof, why wouldn't it be a good idea to take the two hundred million dollars and other installments, as they are paid, and retire bonds? Such a policy would soon send them killing to par.

## MENTAL TESTS BEFORE MARRIAGE

**A** HUSBAND in Chicago was brought before a judge on the charge of deserting his wife and two children, and he made the plea that his wife would not kiss him when he returned from work. The wife explained it by saying that his face was always dirty, but she would kiss him if he washed his face and hands.

This sounds very foolish to the average person, but it would seem to be a serious matter with the temperamental husband, who left home with the idea that he had a real grievance, if his statement to the judge can be accepted as evidence. He lacked totally the element of common sense which is so necessary in marriage.

The case is only one of a large number that illustrate the value of mental tests before marriage might have in bringing about better conditions in the marriage relation. There should be fewer divorces if the fitness of applicants for marriage could be determined by tests of psychology.

Many big concerns, employing large numbers of men and women make mental tests a part of the examination to learn the fitness of applicants for employment and to determine the special work for which they may be qualified. These tests have been pronounced of practical value.

Officials of the United States government recognized the principles of psychology in giving tests for applicants for places in the commissioned personnel of the army. Some of the questions and other tests seemed ridiculous, but they had their purpose in the examinations.

An expert in mentality should be able to ascertain whether a man and woman were temperamentally fitted to share their lives together, but it would be quite another thing to bring the public and the lawmakers to the point of approving any method that would require that these tests be made before marriage. Dan Cupid is able to ensnare the heart, but he is not always a judge of compatibility.

## PAPER SHORTAGE AFFECTS SCHOOLS

**A** CONDITION in the Philadelphia public schools forebodes what the shortage of print paper means and what, if it continues, will be the result, declares the Fourth Estate, a newspaper trade publication.

The shortage of paper in one of that city's high schools is so acute that pupils are forced to study from notes.

In many of the elementary grades school books are so old that they are unsanitary.

Although the board of education has made appropriations, the scarcity of books, caused by paper shortage and increased prices, has forced the board to transfer funds from other branches in order to help and this has not yet been sufficient.

Thus paper shortage clogs the wheels of education. The effect on newspapers was felt some time ago. Where it will lead to, if it continues, is a puzzle to the best equipped optimist.

Near ten million in government war bonds were sold on the New York market Saturday. At that they made a distinct advance in price.

# Free Cancer Treatment

By Frederic J. Haskin

**N**EW YORK CITY, October 18.—Cancer, or of any other part of the body, is the greatest scourge against which the human race has ever undertaken. In this, the most often a distant and obscure foe, it is the most insidious and deadly of all diseases. In case of its insidious attack, accompanied by these symptoms, a person of cancerous tendency should be suspected and an effort for the study of malignant disease should be made.

Two grams of radium have been secured by the state through the purchase of the same for \$225,000. There are only two or three hospitals in the country which have this much radium. It is to be used at the hospital of the state at Buffalo for the free treatment of cancer patients who apply, ignorant that such facilities exist, or any citizen of the United States is eligible for this treatment, but preference will be given to those who are residents of New York State. These radium treatments must go to Buffalo, as the radium cannot be distributed about the country.

Although the amount of radium is small, it is a great asset to the state, and it is a duty to insure that it is to be used at the hospital of the state at Buffalo for the free treatment of cancer patients who apply, ignorant that such facilities exist, or any citizen of the United States is eligible for this treatment, but preference will be given to those who are residents of New York State. These radium treatments must go to Buffalo, as the radium cannot be distributed about the country.

Officials of the Society for the Control of Cancer say that in New York City it is coming to be the middle classes, composed of salaried workers, and not the poor, who suffer most from lack of medical attention. The poor do not stand upon their pride, and early become used to availing themselves of free medical advice. They are apt to go to a public clinic or hospital of some sort wherever they are ill. There they get medical treatment which is always competent and often as effective as money could buy.

## False Pride Often Fatal

The wealthy take good care of themselves, too, employing specialists and fancy prices. But the chap in between, who cannot afford a specialist and who considers himself too good to go to a free clinic, is the sufferer. Often he puts off seeking treatment for an ailment because he cannot afford it, until it is too late. Nothing is more needed in the way of sanitary education than to teach this individual to pocket his false pride, to learn of the medical facilities which his state or his city places at his disposal, and to avail himself of them whenever necessary.

In New York City today one may find competent treatment by specialists for almost any of the more serious of the diseases. Tuberculosis, for example, are offered not only diagnosis and treatment, but also excellent sanatorium facilities. Expert treatment for venereal disease is offered free, and so is inoculation against many virulent infectious diseases. Yet all over the country, and even in the cities where the best free facilities are offered, these diseases are bungled by ignorant general practitioners, and commercialized by advertising quacks and by keepers of commercial sanatoria of dubious repute.

Other states are expected to follow the lead of New York in offering free treatment for cancer. The disease is steadily on the increase, for it seems to be a disease of civilization, of large cities and of sedentary ways of life.

# Questions AND Answers

Any reader can get the answer to any question by writing The Portsmouth Daily Times Information Bureau, Frederic J. Haskin, Director, Washington, D. C. This office applies strictly to information. The Bureau cannot give advice on legal, medical, and financial matters. It does not attempt to settle domestic troubles, nor to undertake exhaustive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.

Q. Is appetite a safe guide to follow as to quantity and kind of food? P. B.

A. The Department of Agriculture says that appetite is not always a safe guide. A child's appetite might be satisfied with a diet of sugar, but this would not be good for him. Likewise, a hungry man is not an infallible guide. A bulky diet such as potatoes or bananas would soon satisfy, but would not furnish a satisfactory ration.

Q. How long does it take a message to cross the Atlantic cable? J. S.

A. While the coding and decoding of messages, transmission and delivery of cable messages make it necessary to set the time of a cable message at from three to five hours, the actual time that it takes for the current to cross the ocean is scarcely to be reckoned, since it travels at the velocity of light—186,000 miles a second.

Q. What part of a man's weight is water? G. M.

A. Water forms over 60 per cent of the weight of the body of the average man, being a component part of all the tissues.

Q. What is the new submarine gun that has been adapted by the New York Police Department? C. C. H.

A. This is a gun of great power in the form of a large pistol that can be carried under the coat. It weighs only seven pounds and fires pistol balls or buck shot cartridges, calibre 15, and can be made to fire from one to 1,500 shots per minute at will. It is a simple gun, consisting of only eleven parts and is said to be unequalled for use in riots, or for chasing law breakers in automobiles.

Q. I see in a paper that a certain man is away on sabbatical leave. What does this mean? E. M. G.

A. This refers to a period of one year in which a professor or other scholar in some college or university is allowed to travel, and research.

# New-York - Day - By - Day

BY G. O. MCINTYRE

**N**EW YORK, Oct. 18.—A page from the diary of a modern Samuel Pepys: Up and my poor wife had been arranging my book shelf since dawn. Our new piano came and I played a duet with one finger and sang very solemnly. Comes a message by post from J. Matron, the pamphleteer, who is in Central Africa. Then Leo Marsh came in a frolic to tell of a fellow in Times Square who barked like a dog strongly and all who heard him that.

On the omnibus to show my father A. Carnegie's place and also the cottage of E. Poe, the poet. And we were right merry with a drunken fellow in a drooling humor. Home and then to Misses Belle Bennett's, the play actress, newly come from California, and her father there, the finest affection between them ever I saw.

Launched alone on a hushed pallet. For a walk and saw Mr. Todd, the ship maker, and R. Lardner in a plain dress coat as the manner among gentlemen now is. In a window I saw a fellow spit a great turkey and I thought it for Old Isaac, the news-vendor, who is ill.

In the evening to an indifferent play and then with H. Dudley, the critic, and his wife through the town to a supper and many gay people there and a capricious girl did a burlesque of a contralto, the most amusing thing I have seen in many a day. And a lady with red hair sang "Song of Songs" so entrancing I wept. Then home through the brave moonshirts and so to bed.

When New York is homebound bound it feels itself against sentiment. At the entrance to a ramp in

the Grand Central Station stand three men who sell newspapers. Two are young and alert huskies of the Bowery type. In the center is an old blind man. For twenty minutes the other evening during the Lame-goose-crawl I watched them. The young men were busy making sales but the one brought from the blind man. I asked the corner policeman about it and he said he had volunteered the reason. "The blind feller" he said, "is slow making change."

Delores, the famous beauty of the Midnight Frolic, arrived home the other day from Paris with 20 trunks she had filled in a shopping tour abroad. Naturally she was loaded by the ship reporters as usual parties do not bring that many trunks these days. One trunk was filled with silk stockings, four with hats and three with shoes. Delores came to America a few years ago as a model in a Fifth Avenue shop. She fell under the Ziegfeldian eye and literally walked into fame. For she never essays speaking roles. It is said that she has the most perfect walk of any actress and in this summer she knows how to exhibit fine

several Fifth Avenue candy stores dropped the price of candy from \$1.50 to \$1 this week. Six years ago the same candy sold for 70 cents a pound.

A diverting incident took place at the stage entrance of a Broadway theatre the other night. A resplendent luminous drew up at the curb and a young girl, swathed in a big gray squirrel coat, stepped out to the sidewalk. From the shadows a woman rushed out, pulled off the coat and threw it over her arm. A policeman arrived and explanations were in order. The woman with the coat was the mother of a young strapping who had fallen in love with the actress. He paroled the mother's coat and gave it to her. At the police station the mother proved the ownership and the actress left in tears.

**FRANK B. BRANDEGEE.**—Senator Brandegee of Connecticut is again running on the Republican ticket for a seat in the senate. He was first elected to the senate in 1915. His record is not as certain this year, for he is being opposed by the suffragists and the prohibitionists.

With both the women and prohibitionists against him because of his attitude and stand on some of the questions concerning the m. m. r. Brandegee will not have an easy campaign.

It seems too bad, too, that the women are against him, for he is one of the few unmarried men in the senate.

Senator Brandegee was born at New London, Conn., in 1864. He received his A. B. degree from Yale in 1885 and was admitted to the bar three years later. That same year he was made a member of the Connecticut house of representatives. In 1899 he was speaker of the house. He has been a delegate to the Republican national convention four times.

In 1902 he was elected to congress for an unexpired term. He was then re-elected to the 54th and 55th congresses, but before his term ended he was called upon to fill out an unexpired term in the senate. He then resigned from the house of representatives. He has served in the senate ever since. Among his other duties he has been chairman of the committee on Pacific railroads, member of the committee on inter-oceanic canals, foreign relations, judiciary, and patents. His home is in New London, Connecticut.

He never disparaged his wife. Met lies with commendation. And led a truthful life—

Until one day, he started To run a Foolish Four; Then truth and he soon parted To reunite no more.

Bill's now a bar fifty, The smoothest ever seen, And swears he's getting fifty Per gal. of gasoline!

# CORK HUNGER STRIKER DIES

## EARLY END OF BRITISH STRIKE, RUMORED

### FITZGERALD'S FAST LASTED 68 DAYS; MACSWINEY VERK WEAK

CORK, Oct. 18.—The first death among hunger strikers in Cork jail occurred Sunday. Fitzgerald died at 9:45 a.m. last night, having fasted sixty-eight days.

The condition of Fitzgerald and Murphy had become so grave that, with the consent of the other hunger strikers, the prison doctors were permitted to give Fitzgerald medical treatment. A Cork specialist also was called in.

Fitzgerald was one of the 11 men in a hunger strike in the Cork jail who were kept for a long time in the cells of the medical authorities. Nearly a month ago Dr. Pearson and Mr. Battie, who the jail physicians expressed profound amazement that the men were obtaining from food were alive and conscious at that time the physicians said that except for the starvation and care of the nurse in attendance upon the prisoners it was certain that several of them would have died since they had been there.

Severely Emaciated.

All the hunger strikers were declared to have been reduced to a severe degree of emaciation. The facial emaciation of Fitzgerald at the time he was declared to be most pronounced.

Fitzgerald was arrested for shooting a British soldier Jones outside a Roman Catholic church on September 7, 1919.

LONDON, Oct. 18.—Terence MacSwiney, mayor of Cork, passed a very bad night at Brixton prison, according to a bulletin issued early today by the Irish Self-Determination league. It said he slept well but seems to have caught a slight cold. Every precaution, however, is being taken to prevent his escape.

In a later bulletin the league says a doctor has told MacSwiney that his condition is becoming more precarious. When he becomes unconscious, the doctor is said to have declared he would feel bound to do all he could to save the lord mayor's life and would feed him while he was unconscious.

MacSwiney is quoted as saying that if any attempt is made to feed him under such conditions he would again commence his hunger strike as soon as he revived.

ROME, Oct. 18.—(By Heredity, according to information received today, has referred the problem of the status of Lord Mayor MacSwiney of Cork and the other Irish hunger strikers to the congregation of the Holy Office.

Many urgent appeals to make some pronouncement regarding the case of the lord mayor of Cork and the other Irish hunger striking prisoners have been received by the pope. These appeals are divided between opposite points, and implore the pontiff to reach diametrically opposed decisions on the question whether the death of the prisoners as a result of their hunger strikes would make them suicides.

Examined Reports.

Pope Benedict has carefully and personally examined all the many documents submitted to him citing examples and opinions intended to support the claims of the opposing sides and has discussed the situation with learned cardinals and other prominent figures in the church, but it is indicated, has found them holding widely divergent opinions.

He, therefore, it is stated has laid the problem before the congregation of the Holy Office which settles questions of faith and morals and judges heresy.

### UKRAINIANS JOIN WRANGEL IN DRIVE ON BOLSHEVIKI

WARSAW, Oct. 17.—(By The Associated Press)—Actual fighting having ceased on the northern Russian front, attention has been shifted to Ukraine, where the Ukrainians are carrying on the war for the purpose of ridding their country of Bolshevism.

The Ukrainian army will fight with the Wrangel forces. Plans are being made for the two armies to join soon, and the Ukrainians are gradually working their way to the southeast where General Wrangel's anti-Bolshevik forces are in conflict with Soviet armies.

General Budenny, who is reported to have been wounded before resigning as commander of Bolshevist cavalry, is said to have established headquarters at Minsk, southwest of Kiev, where he is organizing insurgent detachments in the interests of General Wrangel.

According to information received at the headquarters of the Ukrainian mission here the Ukrainian Soviet government was transferred from Kiev to Kharkov some days ago.

During to numerous Bolshevist rail-jug parties operating west of Kiev, railroad communication between Warsaw and that city has not as yet been established.

ATHENS, Oct. 18.—Reports from the sick bed of King Alexander who for some days has been critically ill as a result of infection arising from the bite of a monkey, are that the king shows some improvement and the bulletin issued today states that there was less pessimism regarding his prospects of recovering.

BERNE, Oct. 18.—Former King Constantine of Greece is reported here as intending to take advantage of the situation created by the serious illness of King Alexander, his son, by returning to Greece and claiming the throne.

The Swiss authorities, it is stated, are taking measures to defeat the alleged plan, formed in Switzerland against the present Greek government.

GENEVA, Oct. 17.—Former King Constantine of Greece, replying from Lausanne to an inquiry regarding his attitude toward the regency for Greece being discussed in connection with the illness of King Alexander, telegraphed as follows:

"Sufficient unto the day is the evil thereof. I will not think of a regency yet. My plans are those of my people."

### ENGLISH HOPEFUL OPPOSING FACTION TO REACH TERMS

LONDON, October 18.—One effect of the coal strike upon financial London has been the weakening of the pound sterling, which has dropped to \$3.11 on buying orders to cover actual and prospective coal shipments from United States to Europe. The effect has already been seen on continental exchanges, all of which moved against Great Britain late last week and which were again slightly weaker today.

Persistent reports of efforts to settle the coal miners' strike partly relieved the spirit of anxious uncertainty of the British nation today. For the moment, these reports seem to have greater basis in hope than in actual information.

John Robert Clynes, former food controller, and one of the most moderate of the labor leaders, has expressed confidence in a settlement within a week, if both sides could be brought together to discuss calmly the controversy. He advocates as a basis of agreement the granting to the miners of half their demands and the submission of the remainder to an impartial tribunal.

J. H. Thomas, general secretary of the National Union of Railwaysmen, also has made moderate statements and both these men are relied upon to do their utmost to shorten the strike.

Newspapers contrast the attitude of Clynes and Thomas with that of G. T. Crampton, president of the National Union of Railwaymen, who has given significant warning to members of that union of "the serious situation which will be created if the miners are defeated."

They also call attention to an utterance by another prominent laborite, Edwin Davis, secretary of the Dock Workers' Union, who in a speech yesterday accused the government of having engineered the strike, and charged it with double dealing.

The position of the government regarding the strike is entirely different from that of 1912, when it interposed between owners and miners to settle the dispute. The government as a result of the war has been placed in the position of the directorate of the mining industry, the finances of which it controls and consequently it is interested in the prosperity of the coal trade which is yielding a large sum to the exchequer. It is maintained the government wholly supports the premier's intimated readiness to explore every avenue toward settlement, and will facilitate almost any movement toward the reopening of negotiations. Such a movement it is suggested, may be started at today's meeting of the parliamentary committee of the trade union conference, with the executive committee of the labor party and labor leaders in parliament.

The transport workers and the railway men were evidently marking time today in the matter of making the final decision whether they would lend their support to the striking coal workers. They appeared inclined not to take precipitate action pending proposals from some source upon which the government and the miners could negotiate.

### HARDING ASSURED OF 378 ELECTORAL VOTES, SAYS HAYS

St. Louis, Oct. 18.—Senator Harding assured of 378 electoral votes, and probably will receive at least 360, will be chairman of the Republican national committee, told newspaper men today in an informal talk over reports being received at Republican headquarters here from which a formal forecast of the presidential election will be made some time this week.

After spending the day talking by telephone to campaign managers in the western states, Mr. Hays said he was convinced that "Senator Harding will carry every northern and every western state, and had a good chance to carry Oklahoma and other border states."

West is Republican.

Western states which heretofore have been classed as doubtful, now definitely are Republican, he said.

In the senatorial races, Mr. Hays predicted that the Republicans would hold everything they now have, and would gain by carrying Maryland, South Dakota, Kentucky, Colorado, California, Nevada, Arizona, and Oregon. Every Republican senator running for reelection is certain of victory, he said.

Formal Statement.

In a formal statement issued earlier in the day, Mr. Hays declared that the forward march of Republican victory moves on irresistibly.

"The reason," said the statement, "is summed up in two words—America first."

Democrats Impotent.

"We must and shall do our whole duty by the world's peace—with an eye to America first." But the electoral college refuses to forget that the Wilson League—a contract for international war, parading in the clothes of peace—is only one of a score of utter failures and betrayals which November's solemn referendum must settle. It refuses to keep its eyes riveted on Europe. It refuses to ignore the driving domestic problems close to every hearthstone, before which the Democratic party has stood impotent and confessed bankruptcy.

"It is thinking of America first and effective attention of America first is to last."

U. S. MAY BE DRAWN IN DUNDEE, Scotland—United States in danger of being drawn into Irish struggle if north and south Ireland are left to fight out their own differences, Winston Spencer Churchill said in speech.

That means more than the preservation of our constitutional independence, against super-government abroad. It means more than the protection of constitutional functions against White House theft of authority at home. It means that these domestic problems are in the public mind, and that these domestic problems are again to have progressive and constructive and effective attention at Washington.

### Harding To Spend Balance Of Campaign On "Front Porch" At Marion Home

MARION, O., Oct. 18.—Senator Warren G. Harding arrived home today after his strenuous trip through Tennessee, Kentucky, Indiana, Illinois and Missouri. The candidate expressed gratification over his reception enroute which concluded with a speech in St. Louis where he was given a twenty-five minute ovation by a crowd of more than 15,000 persons.

Only one more trip will be made by the candidate outside his own state during the remainder of the campaign when he will make speeches in Buffalo and Rochester on the afternoon and evening of Oct. 21. Senator Harding will be the principle speaker at a mammoth outdoor barbecue at Jackson, in northern Ohio, on October 20, and if tentative arrangements work out, will wind up the campaign with a speech in Cleveland on the night of October 27.

To Stay On Porch.

With the exception of these engagements, the balance of the campaign will be conducted by Senator Harding from his front porch, and plans are now under way for his making addresses to a number of front porch pilgrimages.

The first and perhaps the most unusual of these will take place tomorrow and will consist of combined delegations from the eighth Ohio congressional district together with several thousand visitors from many parts of the country who will this year cast their first votes in a presidential election.

A majority of the latter will be women. A parade through the streets of Marion to the front porch in which 20,000 persons are scheduled to march, will precede Senator Harding's speech.

To See General Wood.

Major General Wood, one of Senator Harding's chief contenders for the Republican nomination, is understood to be making plans to greet the candidate here tomorrow. Altogether it will be one of the biggest days Senator Harding's quiet little town has seen since its first citizen returned victorious from Chicago.

COOLIDGE INVADERS KENTUCKY ON BOARD GOVERNOR COOLIDGE'S TRAIN, Oct. 18.—The special train bearing Governor Coolidge and other Republican party leaders for a week's tour of border and southern states traversed Virginia and part of West Virginia last night and early today struck into Kentucky where two days will be spent in campaigning from the rear platform and at town meetings.

### Search For Sing Sing Fugitives

OSHING, N. Y., Oct. 18.—Sing Sing prison keepers, reinforced by police and civilian volunteer forces today continued in search in four states for George Silvers and Marcus Bassett, two "trustly" convicts who on Saturday night made a spectacular break for liberty.

Belief was expressed by keepers that the desperadoes had tried to reach Rhode Island or Massachusetts, and warnings were sent broadcast to the police of those states, as well as Connecticut and New York.

Earlier yesterday, the men, riding in a stolen automobile, held up several different garage keepers and other civilians in Connecticut from whom they took citizens clothing, gasoline and food.

# N. & W. Smoke House Team Defeats Catlettsburg, 13-7

PERRY ANTE

The Afternoon Game

## Hard Fought Game Is Treat For Football Lovers

Portsmouth's Sunday football eleven carried off a hard fought game from Catlettsburg on the Catlettsburg gridiron Sunday afternoon by a score of 13 to 7. The local eleven played a much better game of football than they displayed against the Chillicothe Athletic Club team a week ago. The N. & W. Smoke House lads worked like a machine Sunday and showed plainly they had been practicing hard.

Although the visiting eleven only had one man right end, Hagans, who performed in real football style, the Catlettsburg boys gave the locals a light game and threatened to score several times in the last quarter.

Portsmouth scored near the end of the first quarter when a fake half back run turned out to be a pass over the goal. A Catlettsburg man blocked the pass but the local quarterback, Hopkins, caught the pigskin before it touched the ground, the pass resulting in a touchdown. A Catlettsburg player got together and after consulting the rule book decided the play was illegal and that the score should not count as the pass over the goal was on the fourth down.

In the second quarter Portsmouth worked the ball back down the field to Catlettsburg's two foot line and there lost the ball when the Empire claimed the ball was passed.

With the score nothing to nothing the locals went into the second half determined to make up for the lost scores. They did not waste any time and after Catlettsburg kicked off the game, Portsmouth worked the ball down the field by a series of line plunges. Clinton carrying the ball most of the time for big gains. Montgomery and Pearce also carried the oval between times, giving Clinton a chance to get his wind before taking the ball again. With the goal five yards away Hopkins went through the heavy line for a touchdown and Montgomery kicked the goal.

The last quarter was only a few minutes old when Hopkins made the second touchdown. The ball was on Catlettsburg's own 25 yard line when they attempted a pass. Hopkins intercepted the pass and made the 25 yards to the goal, end Webb upsetting the only threatening tackle, Hagans, who seemed to be in every play. Shoe-maker, who made big gains as half back for Portsmouth in the first half, went back into the backfield when Clinton was laid out in the last quarter. From this time on to the end of the game Hagans was put into the backfield where he showed as much ability as he did at end. He made the only touchdown for the visitors and their only touchdown. Hagans started the play for the touchdown by skirting left end for 15 yards this being followed by short passes and line plunges that carried the oval to the 10 yard line from which place Hagans carried over on a line plunge. Hagans also kicked the goal.

"Red" Ford who played halfback for the visitors formerly played Sunday football here.

The locals were well pleased with the crowd, 400 turning out and with such support given the team on at least one play will be made to have all games played at home this season.

## THE RUN THAT WON THE SIXTH GAME AND A CLOSE PLAY

Inset shows Tris Speaker scoring lone run of game in sixth and Gardner beating throw to first after Burns has been forced at second. The arrow points to the ball in flight toward Konechky.

Manager Tris Speaker had the honor of scoring the run that won the sixth game of the world's series for Cleveland. With two out in the sixth Tris singled. The hit and run sign was hung out and as the pitcher unwound Spoke was off. Burns drove the ball to center field for a double. Tris scoring standing up, as the photo shows. In the second inning Burns started the season by drawing a pass. Gardner drove a grounder to Konechky. The Brooklyn first baseman whipped the ball to Olson, forcing Burns at second. Gardner, however, beat Olson's return to first base by half a step. The closeness of the play at first is shown above. Konechky is reaching out for the ball, indicated by the arrow, as Gardner races to the bag.

## HIGH SPOTS IN SPORTS

Jim Dunn and Tris Speaker were guests at a big banquet of the Elvira Chamber of Commerce Friday night.

Georges Carpentier, the European heavyweight pugilistic champion, has pledged his wife that he will retire from the ring after a match with Jack Dempsey.

Eddie Collins has certainly played to hard luck during his brilliant baseball career as far as getting mixed up in ball teams that were wrecked or concerned. He was a member of the 1914 Athletics that were later broken up by Connie Mack. And this year he was a member of the Chicago White Sox, certain members of which were mixed up in the baseball scandal.

Just look this aggregation over for an all-star team:

First Base—Sider, St. Louis.  
Second Base—Collins, Chicago.  
Shortstop—Barnett, New York Nationals.  
Third Base—Weaver, Chicago.  
Outfield—Speaker, Cleveland; Ruth, New York; and Wheat, Brooklyn.  
Catchers—O'Neill, Cleveland and Schalk, Chicago.

Georges Carpentier and Battling Levinsky are still denying that their fight was a fake.

The best tribute that could be paid to the Cleveland fans is to whether they are close students of the game and really know baseball is that more than one-half million score cards were sold at League Park during the past season. This doesn't seem possible but nevertheless it is true, just what the actual attendance figures were at

Cleveland for the season is guesswork and simple as no official attendance records are ever given out except on opening day and in case a record is broken but it is estimated that close to one million fans eluded the turnstiles in the 78 season games and the world's series.

Reports that Ty Cobb had been sold to the Chicago White Sox for \$50,000 and that a new team would be built around him next year, have been heard frequently in the last few days.

## Solvays Win A Close Game

The Portsmouth Solvay team won a close and hard fought game from Fulton on Long Island Sunday, the count being 6 to 5.

Townsend and Hallas pitched for Solvay while Ford worked for Fulton. Ford played third base for Fulton, but earlier in the season had showed up well on the mound Sunday, keeping the Solvay hits well scattered.

Fulton hit footsore hard in the fourth frame and when the rally was over five tallies had crossed the plate. Solvay tied the score in the sixth and over the winning run in the 8th. The fans at Fulton witnessed their best game of the season when the two clubs clashed.

## Otway Team Is Swamped

McDermott's baseball team, playing their last game of the season Sunday at Otway defeated Otway by a score of 12 to 2, the McDermott lads having everything their own way.

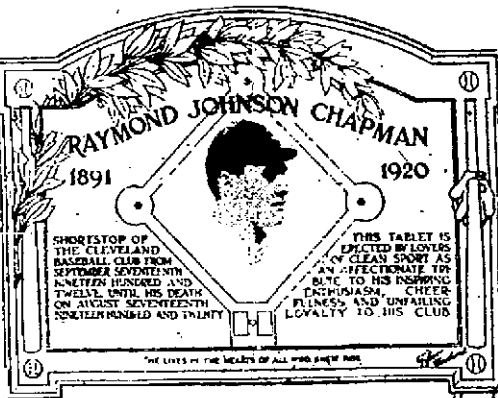

Wahls, Sanderson and Evans worked on the mound for Otway and each one was hit hard by the McDermott sluggers. Phil Jernegan made the feature play of the game when in the third inning he hit a home run off Wahls. The ball which went into left field was one of the longest ever hit on the Otway diamond. Weidore and really know baseball is that more than one-half million score cards were sold at League Park during the past season. This doesn't seem possible but nevertheless it is true, just what the actual attendance figures were at

## Sisler Holds Fine Record

The honor of making most hits in a season is now held by two players who claim or claimed allegiance to the St. Louis Browns.

George Sisler makes the modern day record. Tip O'Neill of the old Browns of 1897 made the old time record, which was 277 in the year named. In that year, however, there were unusual conditions in aid of the latter, who not only was allowed four strikes, but base-on-balls were counted as "hits." Sisler's record, therefore, is rightfully considered the best of all time.

## DESIGN FOR RAY CHAPMAN MEMORIAL

This is the design for the tablet to be erected to honor the memory of Ray Chapman, Cleveland shortstop killed by a pitched ball August 17. The tablet has been approved by the members of the committee chosen to decide on the memorial. This design is a combination of two submitted and selected by the committee from a group of fifty submitted by artists and bronze manufacturers throughout the country. The tablet is to be approximately four feet wide and three feet high and will be cast in one piece of pure standard monumental bronze, with the portrait, ornamentation and inscription in low relief. It will be mounted on a slab of verde antique marble and is secured in a manner to make its removal impossible. The memorial is to be placed just inside the Lexington entrance of League Park, Cleveland, and will be illuminated by lights placed immediately above.

## Ty Does Not Want Job Of Bossing Detroit Tigers

SAN FRANCISCO, Oct. 18.—Ty Cobb, champion baseball player of all time, has no desire to become a baseball manager. He just wants to be a player.

Cobb is here to play in a series of exhibition games. He admits he has received offers to manage the Tigers. He said:

"I'm not figuring on becoming a manager right now. I never had any managerial experience, and I don't crave it. Of course you can't tell what will happen in time. When I'm through making hits and scoring runs and catching flies I may tackle a whiff at running some ball club. I believe that an agent for two or three years as a player."

The baseball scandal should be forgotten, Cobb said.

"What's the use of discussing baseball scandal? The crooks are suffering now and the honest men will have their chance. I only hope that they don't ruin the game, and I need not add that baseball will come back stronger than ever."

## Rio Grande Plays P. H. S. Team Here Next Saturday

Next Saturday the P. H. S. eleven will clash with the Rio Grande College team on the Sixteenth street field.

The locals will be put through stiff practice sessions every afternoon and they will not be left to recover from bruises sustained in Saturday's game at Dayton when Steele High won 22 to 0. The assistant coaches who are helping Coach McCool materially, say that the locals need the practice more than they do the rest and intend to work the soreness out through hard practice. A general meeting of the team will be held this afternoon before they go to the field and the weak points discovered in Saturday's game will be pointed out.

Don Solby and Forrest Williams, former High School stars and ex-college stars, who have been watching the team carefully the last week and who made the trip to Dayton Saturday, will work with the locals this week.

Rio Grande will give the locals a real battle for they have some former college stars with them this year. They beat Houston 25 to 7 and Saturday beat Houston 22 to 0. Houston and St. S. played a 2 to 2 tie, which shows that the Red and Blue will have to work hard to beat the visitors.

Saturday's game showed the locals the class of teams they had been meeting year after year in this section of the state. The Dayton coach had 26 men in uniform on the field and seemed to be as good as the others. The Dayton men keep changing continually, thus keeping fresh men in the game at all times. The locals held well in the first quarter, Dayton scoring only one touchdown. In the second quarter they broke loose and run their count up to 21, and from then on, had things their own way, scoring almost at will. Besides being heavy the Dayton lads showed bursts of speed that carried them far in front of any local tackler who would dare chase.

Captain Fred Miller will be out of the game several weeks with an injured knee.

## WILL TY COBB SUCCEED JENNINGS AS TIGER PILOT?

Hughie Jennings, at left, and Ty Cobb.

The first real topic for the writer above leaves to discuss is furnished by the resignation of

Hughie Jennings as manager of the Detroit Tigers. Jennings' move is of unusual interest in two ways. First of all, it is talked of as the new manager of one of three or four other big league

## Ohio State Takes On Wisconsin In Columbus Saturday

COLUMBUS, O., Oct. 18.—Ohio State's 1920 football team, this week ready to clash over Wisconsin, one of its most formidable obstacles of the fall campaign.

With four victories in seven starts against Ohio State to his credit, Coach John Richards of the Buckeyes will trot out a veteran eleven to oppose the Badgers.

It'll be a battle for blood since Richards coached the Ohio State squad in 1912, the year before the Buckeyes were admitted to the Big Ten, while Coach Jack Wilco of the Ohioans, a graduate of Wisconsin in his college days was a star Badger fullback and crew man.

Wisconsin has a big edge in points scored over Ohio with 70 against 42. It has shut out the Buckeyes twice and has been whitewashed once. Last fall "Chic" Harley's educated foot reared a 3 to 0 win over the northerners on their own field.

Ohio State will be stronger against Wisconsin than it was in the Purdue tie, since Frank Williamson, star fullback, will be back in the lineup after a layoff of some days because of a bad leg. He'll be a tower of strength on both the offense and defense.

In Captain Weston, the visitors have one of the best flankers in West. In Captain Weston, the visitors have one of the best flankers in West. In Captain Weston, the visitors have one of the best flankers in West.

## Races Close This Week

ATLANTA, GA., Oct. 18.—The 1920 grand circuit season will be brought to a close this week with the meeting which opened today at Lakeside Park.

Four races were on today's card and will continue through Saturday program, the largest prize being with three or four events on each day's program.

Practically all the big ships of the grand circuit have been shipped here. In addition number of horses that have been racing on southern tracks have been entered. The meeting, however, will continue through Saturday program, the largest prize being with three or four events on each day's program.

## Nessler Will Meet Gary

MINNAPOLIS, Oct. 18.—The friends of Nessler, the best west boxer, will have their chance to see him fight with Frank Nessler, a local fighter, in a bout which is expected to be a close one.

Nessler, a graduate of Wisconsin in his college days was a star Badger fullback and crew man.

Wisconsin has a big edge in points scored over Ohio with 70 against 42. It has shut out the Buckeyes twice and has been whitewashed once. Last fall "Chic" Harley's educated foot reared a 3 to 0 win over the northerners on their own field.

## NO NEED FOR HURRY

WILLIAM JENNINGS BRYAN has sprung a new moral and economic proposal, nothing less than this country proceed at once to cancel the loan of ten billion dollars made by it to the allied nations and hold the same for ransom. His argument is that the allies are in no condition to discharge the debt out of their own resources, so they must impose it upon Germany, to eternal bankruptcy and throwing the whole world out of gear, imposing more wars and pestilences. The argument is sympathetic and to some extent plausible, but we can not believe either Germany or the world would be less laden and embittered if they were bounteously charged off. France, England and Italy would not consent to see Germany go a quit for the indecency by that much. They are going to collect all they can down to the last farthing, and there'll not be half of that left, if France have the dominant say. There is no reason at all to be in a hurry about the matter anyway. So far the Allies have done fairly well with the loan. This week they are paying two hundred millions on it—not a cent so far coming from Germany—and the world hasn't been unusually disturbed. And here is a suggestion: If Uncle Samuel can get along without the payment of that ten billion dollars, or any part thereof, why wouldn't it be a good idea to take the two hundred million dollars and other installments, as they are paid, and retire bonds? Such a policy would soon send them hither to pay.

## MENTAL TESTS BEFORE MARRIAGE

A HUSBAND in Chicago was brought before a judge on the charge of deserting his wife and two children, and he made the plea that his wife would not kiss him when he returned from work. The wife explained it by saying that his face was always dirty, but she would kiss him if he washed his face and hands. This sounds very foolish to the average person, but it would seem to be a serious matter with the temperamental husband, who left home with the idea that he had a real grievance, if his statement to the judge can be accepted as evidence. He lacked totally the element of common sense which is so necessary in marriage. The case is only one of a large number that illustrate the value of mental tests before marriage might have in bringing about better conditions in the marriage relation. There should be power divorced if the fitness of applicants for marriage could be determined by tests of psychology. Many big concerns, employing large numbers of men and women make mental tests a part of the examination to learn the fitness of applicants for employment and to determine the special work for which they may be qualified. These tests have been pronounced of practical value. Officials of the United States government recognized the principles of psychology in giving tests for applicants for places in the commissioned personnel of the army. Some of the questions and other tests seemed ridiculous, but they had their purpose in the examinations. An expert in mentality should be able to ascertain whether a man and woman were temperamentally fitted to share their lives together, but it would be quite another thing to bring the public and the lawmakers to the point of approving any method that would require that these tests be made before marriage. Don Cupid is able to ensure the heart, but he is not always a judge of compatibility.

## PAPER SHORTAGE AFFECTS SCHOOLS

A CONDITION in the Philadelphia public schools fore-shadows what the shortage of print paper means and what, if it continues, will be the result, declares the Fourth Estate, a newspaper trade publication. The shortage of paper in one of that city's high schools is so acute that pupils are forced to study from notes. In many of the elementary grades school books are so old that they are unsanitary. Although the board of education has made appropriations, the scarcity of books, caused by paper shortage and increased prices, has forced the board to transfer funds from other branches in order to help and this has not yet been sufficient. Thus paper shortage clogs the wheels of education. The effect on newspapers was felt some time ago. Where it will lead to, if it continues, is a puzzle to the best equipped optimist.

Near ten million in government war bonds were sold on the New York market Saturday. At that they made a distinct advance in price.

# Free Cancer Treatment

NEW YORK CITY, October 18.—The greatest campaign against cancer ever undertaken in this country will be opened by the State of New York this morning. Two grams of radium have been purchased by the state through the Institute for the Study of Malignant Diseases for the sum of \$225,000. There are only two or three hospitals in the country which have this kind of radium. It is to be used at the hospital of the Institute in Buffalo for the free treatment of any cancer patients who apply. Any citizen of the United States is eligible for this treatment, but preference will be given to those who are residents of New York State. Those seeking treatment must go to Buffalo, as the radium cannot be distributed outside the country.

Although the amount of radium seems a small one with which to offer free treatment to all the cancer sufferers of a great state, it is said by experts to be really quite adequate for the purpose. Radium, although giving off a high degree of energy all the time, decreases in bulk so slowly that it loses only about 50 percent of its substance in 3,000 years. An almost infinitesimal quantity of radium is sufficient for the treatment of one cancer. The doctors say that the number of cases which may be treated with this new grams of radium is limited only by the amount of apparatus for applying it which can be obtained. The radium is usually applied in a sort of hollow glass needle which is thrust into the cancer, although in some cases a radium compress is applied.

Value of State Control. Officials of the Society of the Control of Cancer here are especially pleased at this move on the part of the state because it is important that as much radium as possible should be placed in the hands of government agencies where any one may obtain the benefit of it. It is evident that radium offers excellent chances for commercial exploitation. If not protected by government control, radium treatments might soon become too costly for all except the very wealthy, and it would not be an impossible task to corner the market on radium.

As it is today, treatment for cancer is available for almost anyone who lives in a large city or can reach one. In New York City there are several hospitals which offer free treatment with radium and by other means. The great merit of this state campaign is not only that it offers large additional facilities for free treatment, but especially that it is being widely advertised. What cancer needs more than anything else is publicity. An external cancer, say the authorities, can almost always be cured if it is diagnosed and treated in its early stages, and an internal cancer can usually be cured under the same circumstances. The cure of an internal cancer depends largely, of course, on its location.

The high mortality from cancer results from the failure to recognize the disease and seek treatment for it while it is in its early stages. It should be remembered in the first place, that cancer is a disease of middle and later life. Whenever a peculiar swelling or tumor appears in a person past 35 years of age, cancer should be suspected, and the advice of a specialist immediately sought. What usually happens is that the swelling, which is painless, is neglected by the patient for about six months, until the size becomes alarming, and then it is often too late for a cure.

Internal Cancers Worse. Internal cancers are of course even less likely to be observed in the early stages than external ones. Here again persons of the cancerous age should seek an expert diagnosis in case of any functional disturbances which might be caused by cancer. Cancer of any part of the stomach, which causes about 40 percent of the deaths from

Q. Is appetite a safe guide to follow in quantity and kind of food? P. B.

A. The Department of Agriculture says that appetite is not always a safe guide. A child's appetite might be satisfied with a diet of sugar, but this would not be good for him. Likewise, a hungry adult might eat anything, but this would not be good for him either. It is a good rule to follow in eating to eat what is good for you, and to eat only as much as you need.

Q. A. While the coding and decoding of messages is necessary to get the time of a cable message, the actual time it takes for the current to cross the ocean is scarcely to be reckoned, since it travels at the velocity of light. (Is it miles a second?)

A. What part of a man's weight is water? G. M.

A. Water forms over 60 percent of the weight of the body of the average man, being a component part of all the tissues.

Q. What is the new submarine gun that has been adopted by the New York Police Department? C. H. H.

A. This is a gun of great power in the form of a large pistol that can be carried under the coat. It weighs only three pounds and fires pistol balls or buck shot cartridges, calibre .45, and can be made to fire from one to 1500 shots per minute at will. It is a simple gun, consisting of only eleven parts and is said to be unequaled for use in riots, or for chasing law breakers carrying in automobiles.

Q. I see in a paper that a certain man is away on sabbatical leave. What does this mean? L. M. C.

A. This refers to a period of one year in which a professor is allowed to leave his college for study, travel, and research.

Q. How much did the late war cost us in total? G. H. H.

A. Col. H. H. H. says in "The War With Germany" that the war cost us more than one million dollars an hour, for over two years.

Q. Will the U. S. Treasury replace paper ten cents that is not in good condition? V. N. L.

A. If your ten cent bill (United States fractional currency) is in good enough condition to be identified, the Treasury department will redeem it for you at its face value.

Q. If one holds straight life government insurance for five years and then converts it to a twenty-year payment policy, will the Government give credit for those five years on the converted policy? H. J. H.

A. A soldier who has held his term insurance for five years and then converted it into a twenty-year payment policy will not receive credit on the permanent policy for the five years for which he has held the term insurance.

Q. Did a coal mine ever catch on fire and burn for years? A. M. P.

A. The Bureau of Mines states that there have been several instances of coal mines catching fire and burning for several years.

Q. Under what office and department of the Government are the soldiers' cemeteries in France? R. P. J.

A. The War Department, says that the General Graves and the Graves Registration Service, Quartermaster General's Office, Munitions Building, Washington, D. C. have charge of the care of American cemeteries in France and the bringing of soldiers' bodies home to this country.

Q. What is lignin? E. K. H.

A. Lignin is a substance or mixture of substances which, with cellulose, constitutes the essential part of woody tissue.

# New-York - Day-By-Day

NEW YORK, Oct. 18.—A page from the diary of a modern Samuel Pepys: Up and my wife had been arranged my book shelf, slung down. Our new piano came and I played the piano with one finger and sang very loudly. I wrote a message by post from L. Marcovici, the pianist, who is in Central Africa. Then I wrote a message by post from L. Marcovici, the pianist, who is in Central Africa. Then I wrote a message by post from L. Marcovici, the pianist, who is in Central Africa.

On the canons to show my father, A. Carnegie's place and also the father of E. P. the poet. And we were right away with a drunken fellow in a drooling humor. He got and then to Misses Belle Bonnet's, the play actress, newly come from California and her father there, the most affectionate between them ever I saw.

Landed alone on a lashed pulley for a walk and saw Mr. Field, the ship worker, and R. Landner in a pilot boat as the master among passengers was in. In a window I saw a fellow spit a great turkey and I thought it for old time, the news vendor, who is ill.

In the evening to an indifferent play and then with R. Dudley, the critic, and his wife through the town to a supper and many gay people there and a capricious girl did a burlesque of a contortionist, the most amusing thing I have seen in many a day. And a lady with red hair sang "Song of Songs" so entrancing I wept. Then home through the brave moonshine and so to bed.

When New York is homebound it steals itself against sentiment. At the entrance to a ramp in the Grand Central Station stands three men who sell newspapers. Two are young and alert huskies, the third is an old blundering fellow. For twenty minutes the young men were busy making sales but no one was in Central Africa. Then I asked the corner policeman about it and he had called it and volunteered the reason. "The blind fellow" he said, "is slow making change."

Before the famous beauty of the Midnight Frolic arrived home the other day from Paris with 20 trunks she had filled in a shopping tour abroad. Naturally she was loaded by the ship reporters as dual parties do not bring that many trunks these days. One trunk was filled with silk stockings, four with hats and three with shoes. Before she came to America a few years ago as a model in a Fifth Avenue shop. She fell under the Ziegfeldian eye and literally walked into fame. For she never wears speaking robes. It is said that she has the most perfect walk of any actress and in this manner she knows how to exhibit her trunks.

Several Fifth Avenue candy stores dropped the price of candy from \$1.50 to \$1 this week. Sixty cents a pound, the same candy sold for 70 cents a pound.

A diverting incident took place at the stage entrance of a Broadway theatre the other night. A resident housewife drew up at the curb and a young girl, swathed in a big gray quilted coat, stepped out to the sidewalk. From the shadows a woman rushed out, pulled off the coat and asked it over her arm. A policeman arrived and explanations were in order. The woman, with the coat was the mother of a young girl who had fallen in love with the actress. He pulled the mother's coat and gave it to her. At the police station the mother proved the ownership and the actress left in tears.

No Great Harm Done. Invented, knowing that her playmate Jack wanted a kitten, picked one up one day when it started to follow her, and taking it over to Jack, sold it to him for five pounds.

"Mamma!" said her mother, on finding out what she had done, "don't you know you have no right to sell or even give away a kitten that isn't your own?"

"Well," said the young business woman, "I guess it can go home when it gets ready, can't it?"

And High Chimneys. Customer—"How much is smoked here?" Dealer—"Sixty-five a pound." Customer—"What makes it so high?" Dealer—"The scarcity of smoke." Detroit News.

All In. "You seem very feeble," said the medical examiner. "Well," explained the applicant for insurance, "the agent nearly talked me to death before I surrendered." Judge.

Earning a Decoration. "Why did the King of Caboot give you a medal?" "I gave him one last year," explained the Shah of Fobosh—Louisville Courier-Journal.

Enough. A little lad who wanted a small brother was told by his mother to pray for one, and this he did until hope and patience were alike exhausted. Not long after, however, he was called to his mother's bed room and shown three tiny baby brothers all in the same cradle.

For some time the little fellow stared, then he heaved a sigh of relief. "Go!" he remarked solemnly, "just suppose I hadn't stopped praying when I did!"

Fixed. "What perfect dears!" the visitor to the Sunday school exclaimed in admiration. "Your class is under perfect control. During 300 talk on the lesson not a child even moved. You have taught them to love their study."

"Yes," agreed the teacher, a bit sadly. "They do very well. You see, I made a rule that every time a child moved or whispered, I would talk five minutes longer."

Comment. "It's too bad," "What is?" "That a man can get immensely rich and still not acquire any table manners."
